The designated areas shall thereafter be kept available and retained at all times for the purpose of parking vehicles.

REASON: In the interests of highway safety.

Ecology:

A neighbor has raised concerns about the potential for the garden to provide habitat for slow worms. The council's ecologist has been consulted and has confirmed that it is unlikely that the garden contains significant numbers of slow worms, but has recommended that the following informative is included if Planning Permission is granted:

Slow worms receive strict legal protection under the Wildlife and Countryside Act 1981 (as amended) and the Conservation of Habitats and Species Regulations 2010 (as amended). All work must stop immediately if slow worms are encountered at any point during this development. Should this occur, further advice should be sought from a professional ecologist.
