

FAREHAM

BOROUGH COUNCIL

Report to Planning Committee

Date **25 January 2023**

Report of: **Director of Planning and Regeneration**

Subject: **FIVE YEAR HOUSING LAND SUPPLY POSITION**

SUMMARY

The following report provides the latest update on the Council's Five Year Housing Land Supply position, and supersedes the update previously provided to the Planning Committee on 25th May 2022.

RECOMMENDATION

That the Committee note: -

- (i) the content of the report and the current 5-Year Housing Land Supply position; and
- (ii) that the 5-Year Housing Land Supply Position set out in the attached report (which will be updated regularly as appropriate) is a material consideration in the determination of planning applications for residential development.

1.0 INTRODUCTION

- 1.1. The following 5YHLS position updates and supersedes those previously provided to the Planning Committee. It will continue to be regularly updated as appropriate and will represent a material consideration in the determination of planning applications. It should be noted that the Council's housing land supply position can go down as well as up depending on the circumstances relevant at any given time.
- 1.2. The requirement of the National Planning Policy Framework is for housing need to be calculated by a standard method, as set out in the Planning Practice Guidance. The standard method uses household growth projections and house-price to earnings affordability data (produced by the Office for National Statistics) to calculate the Local Housing Need figure for a Local Planning Authority. The housing need figure for Fareham, using the standard method, is 541 dwellings per annum.
- 1.3. The latest Housing Delivery Test results were published by the Department for Levelling Up, Housing and Communities (DLUHC) in January 2022. These results require this Council to apply a buffer of 20% to its annual requirement.
- 1.4. The National Planning Policy Framework requires Local Planning Authorities to identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their local housing need. What constitutes a 'deliverable site' is defined within the National Planning Policy Framework and is an area which has been tested through the Courts.
- 1.5. Calculation of the Council's 5-Year Housing Land Supply Position based on an annual dwelling requirement of 541 and a 20% buffer gives a projected position of 5.49 years.

2.0 RISK ASSESSMENT

- 2.1 There are no significant risk considerations in relation to this report.

3.0 CONCLUSION

- 3.1 That the Committee note the content of the report and the updated 5YHLS position.
- 3.2 That the 5YHLS position set out in the attached report (which will continue to be updated regularly as appropriate) is a material consideration in the determination of planning applications for residential development.

4.0 **Enquiries:**

Fareham Borough Council
Five-Year Housing Land Supply Position
JANUARY 2023

Introduction

1. The National Planning Policy Framework (NPPF) requires Local Planning Authorities to identify and update annually a supply of specific deliverable sites to provide five years supply of housing against their housing requirements. The NPPF also requires an additional buffer of 5% (or 20% in the case of persistent under-delivery) to ensure choice and competition in the market for land.
2. This document has been prepared to provide the latest position on the 5 Year Housing Land Supply (5YHLS) in Fareham Borough. It will be updated at regular intervals to ensure the most accurate and up-to-date position is available. Updates will be provided to the Planning Committee when relevant and will also be advised on the Council's website.
3. This document is iterative/live and will only provide the most accurate position of 5YHLS at the time of publication. It is possible that sites will be omitted from the 5YHLS and then subsequently, when circumstances change, may feature again in a future iteration of the 5YHLS position (and vice versa). Likewise, delivery rates for included sites are not fixed and are subject to revision following correspondence with site promoters/ developers.

Housing Need

4. The requirement through the NPPF is for housing need to be calculated through a standard method. The standard method is based on household growth projections and house-price to earnings affordability data published by the Office for National Statistics (ONS).
5. Use of the 2014-based household growth projections along with the house-price to earnings affordability data (published by the ONS in 2020) within the standard method results in the Council having a Local Housing Need figure of 541 dwellings per annum.
6. There remains a requirement in the NPPF to include at least a 5% buffer on top of the 5-year housing requirement, "to ensure choice and competition in the market for land".
7. The level of the buffer (5% or 20%) is determined through the Housing Delivery Test, which was introduced through the NPPF. The NPPF advises that each Council's Housing Delivery Test result will be calculated and published by DLUHC each year.
8. The results for the 2021 Housing Delivery Test (HDT) were published by the DLUHC in January 2022 and represent the most up to date HDT results. The results for Fareham showed that the Council achieved 62% in terms of the number of homes delivered against its requirement. Fareham's HDT results mean that the Council must apply a 20% buffer to its five-year housing land supply position.

9. One of the major contributing factors to this Council achieving 62% in the HDT, was the Council's inability to issue many residential permissions during most of 2019 and 2020. This had been due to concerns identified in respect the impact of development-related nitrates on the protected habitats in The Solent. This issue, along with others pertinent to housing delivery, have been set out in the Council's Housing Delivery Test Action Plan (June 2021).

Housing Supply

10. The National Planning Policy Framework requires Local Planning Authorities to identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their local housing need. As such, this section sets out the different sources which make-up the Council's projected five-year housing supply.

Planning permissions

11. A comprehensive list of all sites with outstanding planning permission at the start of each monitoring year is provided annually to the Council by Hampshire County Council. However, to ensure that this 5YHLS position provides the most accurate and up-to-date position, all new planning permissions as of 31st December 2022 are also taken account of. Sites with planning permission are only included within the projected supply where they meet the definition of 'deliverable'. What constitutes 'deliverable' is set out within Annex 2 of the National Planning Policy Framework:
12. **"Deliverable:** To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:
 - a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).
 - b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years."
13. Where there is some indication that a planning permission will not be implemented then the site has been omitted from the 5YHLS on a precautionary basis. However, this may change if subsequent information comes to light to suggest the development will take place in the five-year period.

14. The monitoring of new permissions and the delivery projections of existing sites with planning permission will continue to be kept regularly up-to-date by Fareham Borough Council Officers, through regular correspondence with site developers.
15. Dwellings completed up to the end of December 2022 have been removed from the 'Details of Projected Housing Supply for the 5-Year Period (1st January 2023 – 31st December 2027)' set out at the end of this report.

Resolutions to Grant Planning Permission

16. Housing supply based on sites with a resolution to grant planning permission form a modest component of this Council's projected supply. These consist of sites which have been approved by the Council's Planning Committee, but the formal grant of planning permission remains subject to matters such as the completion of a legal agreement (i.e. Section 106).
17. As highlighted earlier in this report, the National Planning Policy Framework requires Local Planning Authorities to identify and update annually a supply of specific deliverable sites.
18. For a period of time many Planning Inspectors were regarding the definition within the National Planning Policy Framework as a 'closed list' i.e. if a site does fall within the definitions at a) or b), set out within the preceding section of this report, it should not be included within the Council's 5 Year Housing Land Supply.
19. Whether a site does or does not meet the definition is a matter of planning judgement on the evidence available. Officers have exercised that judgement, and on the basis of the evidence available consider that the planning applications with a resolution to grant planning permission should be included within the Council's 5-year housing land supply.
20. In light of the current market conditions, Officers have applied a precautionary approach to the commencement of development in respect of those sites with a resolution to grant.

Adopted Local Plan Housing Allocations and Emerging Brownfield Sites

21. Officers have undertaken a review of the residual allocations and policy compliant sites from the adopted Local Plan to inform the 5YHLS position. This has been based on correspondence with site promoters and Planning Officer judgement.
22. In other instances where Officers have gathered information on the timing and delivery rates from site landowners or developers, the Council have in some instances taken a more precautionary approach to delivery than may have been proposed by the site developer. This could be, for example, if they failed to allow sufficient time for planning permissions to be secured, or if the delivery rates were considered too optimistic. It is important that the Council has a

robust basis for its 5YHLS calculations, as adopting a set of unrealistic assumptions may result in a 5YHLS figure that may not be accepted by an Appeal Inspector.

23. Late last year this Council updated and published its Brownfield Land Register. Appropriate sites identified within that Register are included within the Council's five-year housing land supply.
24. The process of liaison with site promoters and developers will remain ongoing to ensure a robust and evidenced position on 5YHLS can be demonstrated.

Windfall allowance

25. Paragraph 71 of the revised NPPF enables an allowance to be made for housing delivery from windfall sites, providing that there is compelling evidence that they will provide a reliable source of supply having regard to historic windfall delivery rates and expected future trends. An allowance for windfall housing from small sites (1-4 units) has been included within the projected 5-year supply but avoids any small-site windfall development in years 1-3 of that projection and any large-site windfall from the entire 5-year projection.
26. The windfall rates used in the 5YHLS projection are set out in the Council's updated Housing Windfall analysis (April 2022). The contribution from windfall provision within the 5 year period is modest, being 100 dwellings.

Calculating the 5YHLS

27. In summary, the 5YHLS position in this paper is based on the following: -
 - Local Housing Need figure of 541 dwellings per annum.
 - Application of a 20% buffer on the Local Housing Need figure.
 - Outstanding planning permission data and resolution's to grant as of 31st December 2022.
 - Sites allocated within the adopted Local Plan and emerging brownfield sites which are expected to deliver housing over the 5-year period 1st January 2023 to 31st December 2027.
 - Expected windfall development from small sites (1-4 units) in years 4 and 5 (i.e. 1st April 2025 – 31st March 2027).
 - Delivery projections and rates which are derived from detailed liaison with site developers (particularly for larger development sites).

Five Year Housing Land Supply Position (as at 1st Jan 2023)

HOUSING REQUIREMENT

A	Local Housing Need: Dwellings per annum	541
B	Local Housing Need: Total requirement for 1 st Jan 2023 to 31 st Dec 2027 (A x 5)	2,705
C	20% buffer - delivery of housing over the previous 3 years, has fallen below 85% of the requirement, as set out in the 2020 Housing Delivery Test results (B x 20%)	541
D	Total housing requirement for period from 1st Jan 2023 to 31st Dec 2027 (B+C)	3,246
E	Annual requirement for period from 1 st Jan 2023 to 31 st Dec 2027 (D/5)	649

HOUSING SUPPLY

F	Net outstanding planning permissions for small sites (1-4 units) expected to be built by 31 st Dec 2027 (discounted by 10% for lapses)	92
G	Net outstanding full planning permissions for large sites (5 or more units) expected to be built by 31 st Dec 2027	1371
H	Net outstanding outline planning permissions for large sites (5 or more units) expected to be built by 31 st Dec 2027	1508
I	Dwellings with a Resolution to Grant Planning Permission that are expected to be built by 31 st Dec 2027	286
J	Dwellings allocated in Adopted Local Plan that are expected to be built by 31 st Dec 2027	44
K	Dwellings from brownfield register sites that are expected to be built by 31 st Dec 2027	165
L	Small site windfall allowance (years 4 – 5) (50 dwellings x 2 years)	100
M	Expected housing supply for the period from 1st Jan 2023 to 31st Dec 2027 (F+G+H+I+J+K+L)	3,561
N	Housing Land Supply Position over period from 1st Jan 2023 to 31st Dec 2027 (M – D)	315
O	Housing Supply in Years (M / E)	5.49

Site Address	1 st Jan – 31 st Mar 2023	2023/24	2024/25	2025/26	2026/27	1 st Apr – 31 st Dec 2027	Totals
