

## RESPONSES TO LETTER DROP

## APPENDIX C

NAME REF.	COMMENTS/ SUGGESTIONS	OFFICER RESPONSE
1	Very much in favour of the proposed changes to the parking restrictions in Lower Bath Lane. Those who object will not be residents of Lower Bath Lane but will have worked out that they can 'work the system' and avoid the need to pay for their parking.	<b>Comments noted – support</b>
2	In favour of proposal	<b>Comments noted – support</b>
3	Agree with proposals as I think these were the original thoughts but somehow went wrong along the way. We pay forty pounds a year for the right to park outside our own houses ,this will I hope at least give us a better chance of achieving it.	<b>Comments noted – support</b>
4	Fully support the changes proposed to ensure that residents have better parking facilities. The extended restrictions on hours will make a big difference, in particular on Saturdays.	<b>Comments noted – support</b>
5	Need more restrictions on visitors parking in Bath Lane as I have to walk from the spaces by viaduct by the roundabout sometimes as no parking in Deane's park road either. This is especially dangerous as I have a baby and a 4 year old child and there is a drop into the water with no barrier. In cricket season it is the worst!!! Then it is extremely dangerous as cars parked everywhere on pavements and corners too.  Would also suggest providing a disabled space.	<b>Comments noted – support</b>
6	Fully in favour of proposed changes	<b>Comments noted – support</b>

7	In favour of the new proposed parking restrictions in lower bath lane. In the weekdays people from Deane's park rd who do not have a permit park in lower bath lane so they do not have to pay for a permit -they then leave the cars there all weekend, hence why there is not enough parking for the residents who live in lower bath lane	<b>Comments noted – support</b>
8	Extending the restrictions would be fantastic - of course we understand that visitors would still be able to park here but it would hopefully alleviate some of the problems we have.	<b>Comments noted – support</b>
9	Support the proposal to extend the times the restrictions apply in Lower Bath Lane from 8pm to 6pm, Monday to Saturday.	<b>Comments noted – support</b>
10	New parking regulations will be a very good idea.	<b>Comments noted – support</b>
11	Very much in favour of the new waiting restrictions. only concern is keeping the 2 hour waiting allowance, as several residents of Deanes Park Road have worked out that they do not need to purchase a permit if they work, as they can come home any time after 2pm & park in Bath Lane for free for the rest of the day & up to 2 hours in the morning. We regularly have Deanes Park residents taking up most of our very limited parking spaces in Lower Bath Lane.	<b>Comments noted – support</b>
12	Am in agreement with the latest proposals bringing the parking restrictions in line with Deanes Park Road. I think having two different restrictions in such a small area is confusing.	<b>Comments noted – support</b>
13	The bays should be for residents parking only, at all times. Visitors can use a visitor pass when visiting a resident. When the cricket season is on the cars should be allowed to park on the field as they do when there's a match.	<b>Comments noted – support</b>
