

STRATEGY 2014-2017

Fareham Community Safety Strategy 2014-17

Fareham is a safe place, however Fareham's Community Safety Partnership want to ensure that it is made even safer by all the partner agencies continuing to working together.

The Partnership's challenge is that the good performance and progress that was achieved through the delivery of the 2011-13 Strategy and Action Plan is maintained and delivered through the new strategy and associated action plan. The 2013 Strategic Assessment that was undertaken to identify the patterns of crime and disorder in the area has identified five priority areas. Through the new strategy and action plan and by effective partnership working we are committed to and focussed on achieving reductions in incidents of anti-social behaviour, violent crime and crime related to alcohol or drugs.

Whilst the Partnership operates in a climate of tighter financial pressures and reduction in funding and resources it is continuously looking to identify better and more efficient ways of working. One area of good practice is having some of our partnership colleagues such as the Youth Offending Team, Integrated Offender Management, Transform and Department of Work and Pensions co-located in Fareham Borough Council's Civic Offices making working on community safety initiatives much easier. By listening to our communities and through a focussed approach to tackling priorities, closer partnership working and more effective use of resources we will strive to deliver the actions contained in the plan. After Simon Hayes, Hampshire's first Police and Crime Commissioner visited the Partnership he said "I've been very impressed with Fareham's Community Safety Partnership; the different agencies are working together with one purpose. The work that's done is innovative and successful to protect the residents from harm. There are social problems that need to be addressed in the community in Fareham and the CSP supports people, addresses those problems and tries to reduce reoffending."

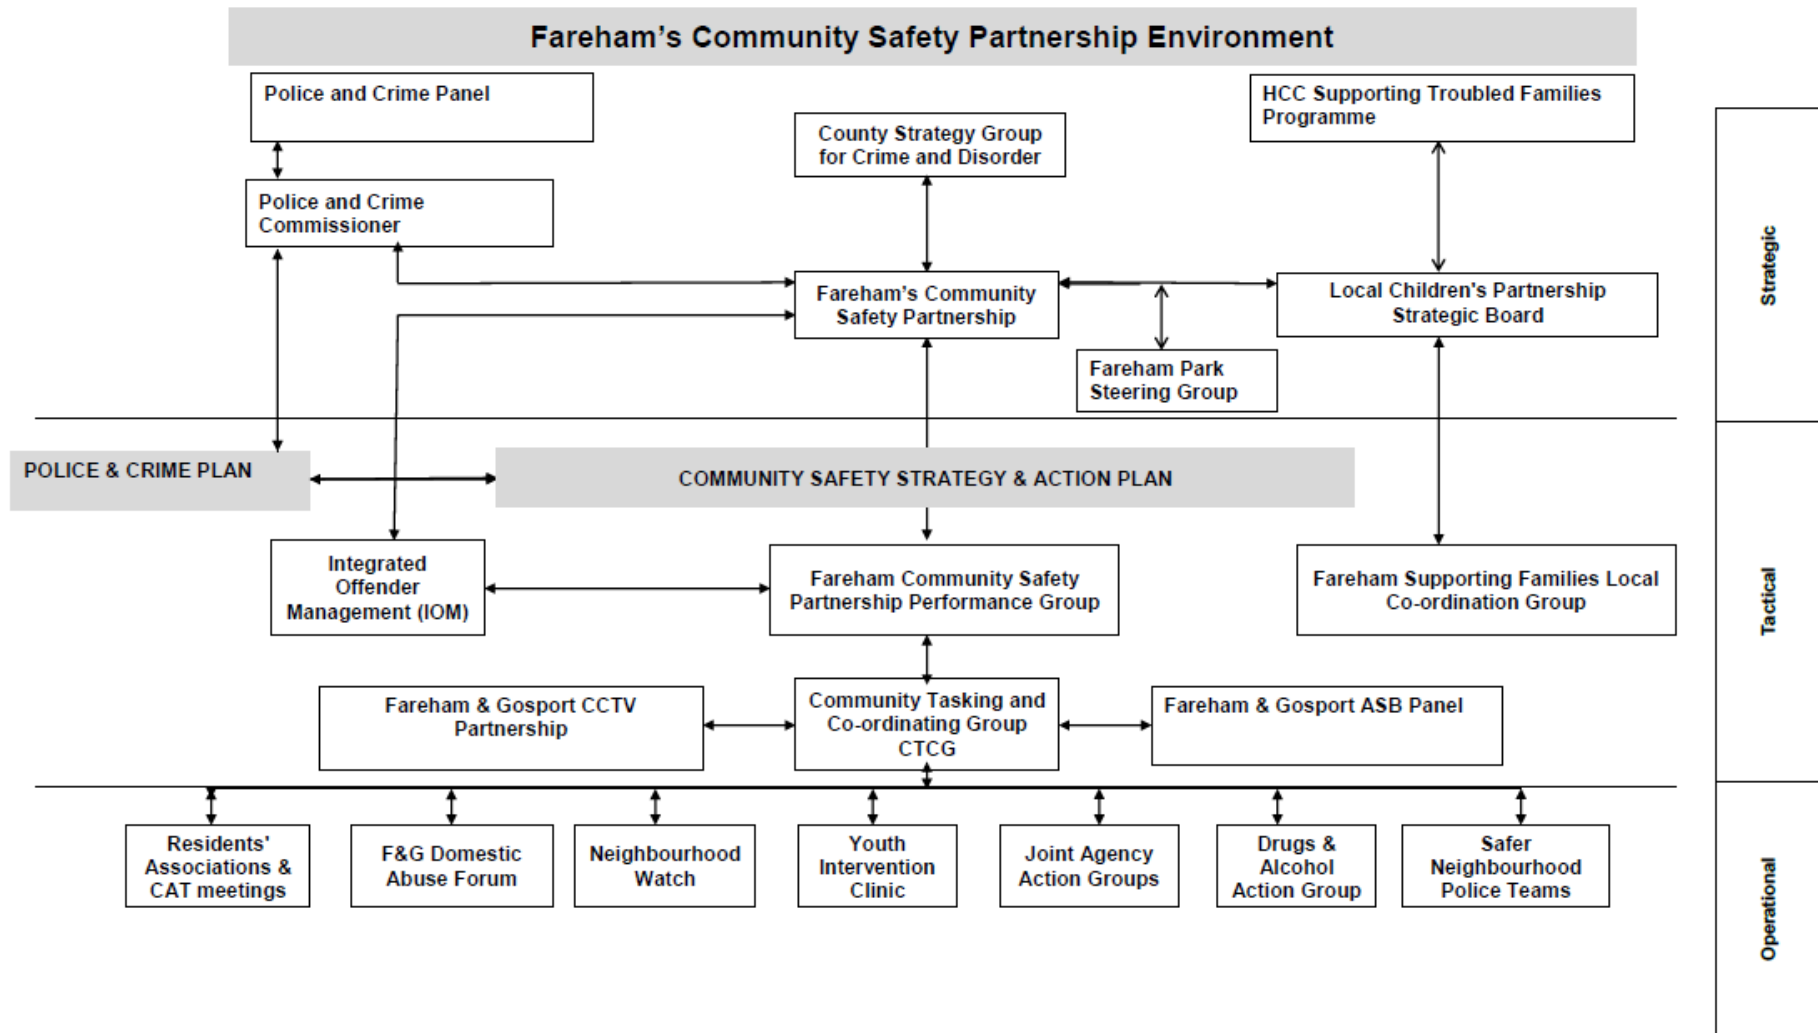

There are risks faced by the Partnership, especially diminishing resources, the uncertainty behind changing legislation such as the introduction of the current Anti-Social Behaviour Bill and the tools and powers it will bring with it. The Transforming Rehabilitation of Offenders agenda also changes the landscape of community safety and we have to be optimistic that the change to privatisation will provide opportunities to the Partnership and aid the reintegration of offenders.

However, despite being one of the safest areas in Hampshire, we cannot be complacent and we will continue to find better, more efficient ways of working, with the objective of achieving year on year reductions in crime to ensure that Fareham remains a safe place to live, work and visit.

The various organisations and relationships that Fareham Community Safety Partnership has are highlighted in the above diagram. The diagram highlights the links with the Partnership and the importance of the Community Safety Strategy and Action Plan.

Partners' role in Fareham's Community Safety Partnership

The following organisations work together to tackle crime, disorder and antisocial behaviour in Fareham. Collectively these organisations are known as Fareham`s Community Safety Partnership. The Partnership is made up of the following statutory and invited partners.

<u>Statutory Partners</u>	<u>Role and contribution to community safety</u>
Fareham Borough Council	Plays a part in making Fareham a safe and healthy place to live and work. Fareham Borough Council's New Corporate Strategy reflects the important role of community safety, by confirming one of its priorities as ensuring Fareham is 'A Safe and Healthy Place to Work' - a firm commitment to work with Community Safety Partners, in order to continue to the reduce anti-social behaviour and crime conducted in Fareham
Hampshire Constabulary	Plays a part in making Fareham a safe place to work and live as reflected in the main priorities of the Constabulary's Policing Plan 2010-2013. Providing an excellent service - An active presence in every neighbourhood- Catching criminals and managing offenders - Protecting our communities from crime and harm - Making the most of our resources - Equipping our team to deliver
Hampshire County Council	Hampshire County Council's overarching priority in relation to community safety is about developing and supporting stronger, safer communities for all by protecting vulnerable people, maximizing safety in Hampshire and helping you people to live positive lives and help diverse communities to feel secure.
Fareham and Gosport Clinical Commissioning Group	F & G Clinical Commissioning Group is responsible for making sure that local people get the health service they need and ultimately improve health, wellbeing and healthcare in Fareham and Gosport. The CCG will work with patients and the public to transform the way healthcare is delivered so that it continues to be affordable and accessible to everyone.

Hampshire Fire and Rescue	Plays its part in making Fareham a safe place to work and live by targeting it's activities in the areas of prevention protection and response. In line with our corporate priorities and through partnership working and community engagement we will work to; improve fire safety in the home; reduce arson; reduce preventable accidents; support road safety; support youth engagement; focus resources on those most vulnerable; reduce the risk in the built environment and; reduce the impacts of fire and our activities on the environment.
Probation Trust & CRC	Probation plays a part in reducing reoffending by supervising offenders in the community ,working with offenders in custody and helping their resettlement when they are released. Offenders on Community Payback contribute towards community projects suggested by the local community within the Fareham area Working within IOM based at the council's offices it is envisaged an even closer working relationship with the local Community Safety Partnership
<u>Invited Partners</u>	
Neighbourhood Watch	Assists residents in enhancing good citizenship and community spirit by taking responsibility for their own safety and that of their family, friends and neighbours. Continuing to work closely with the Police and reporting anything suspicious and encouraging a two way flow of information, passing on relevant crime prevention and crime trends to residents and to reduce fear of crime
Her Majesty's Court Service	Fundamental part of the criminal justice system. The Magistrates Court hears fact and trials relating to minor offences and undertakes the committal process to transfer more serious cases to Crown Court. The Magistrates Court ensures that offenders are dealt with in a timely manner and work with other community safety partners to deliver appropriate sentences

Fareham Youth Council	Ensuring that young people in Fareham are represented on Fareham's Community Safety Partnership and can contribute to making decisions to guarantee Fareham is a safe place for young people to live
Hampshire Youth Offending Team	Hampshire Youth Offending Team is a multi-disciplinary body that works within Children's Services and the Criminal Justice System and aims to prevent offending behaviour by children and young people aged 10-17 years old. Hampshire YOT works to prevent crime and anti-social behaviour, community supervision of offenders and resettlement of young people from custody
Fareham & Gosport Drugs and Alcohol Action Group	To provide stakeholders a forum to help support raise awareness of local issues, identify gaps, share good practice in the substance misuse field and link with the Health and Wellbeing agenda

Executive Summary

The Crime and Disorder Act 1998 requires Fareham Borough Council to work together with the statutory and invited partners to develop and implement a Strategy to reduce crime and disorder in the Borough of Fareham.

A Strategic Assessment was undertaken in 2013 and this identified the priority areas of work and enabled the development of a strategy and Action Plan to reduce crime, disorder and anti-social behaviour in the Borough over the next three years. This will be refreshed each year to ensure the plan is up to date, relevant, fit for purpose and focuses on the current issues. This analytical document informs the new Community Safety Strategy. The following priorities were contained in the 2011 - 2013 Community Safety Strategy:

- Public Reassurance and Community Engagement
- Reducing anti-social behaviour
- Reducing crimes associated with drugs and alcohol
- Reduce violent crime including domestic abuse
- Reducing criminal damage including arson
- Preventing and reducing re-offending

The table below depicts the downward trend in overarching crime recorded for the period from 1 April to 31 March for 2011, 2012 and 2013 in Fareham. In Fareham there has been an 11.3% (567 incidents) reduction when comparing the period from 1 April 2012 to 31 March 2013 to the period from 1 April 2010 to 31 March 2011.

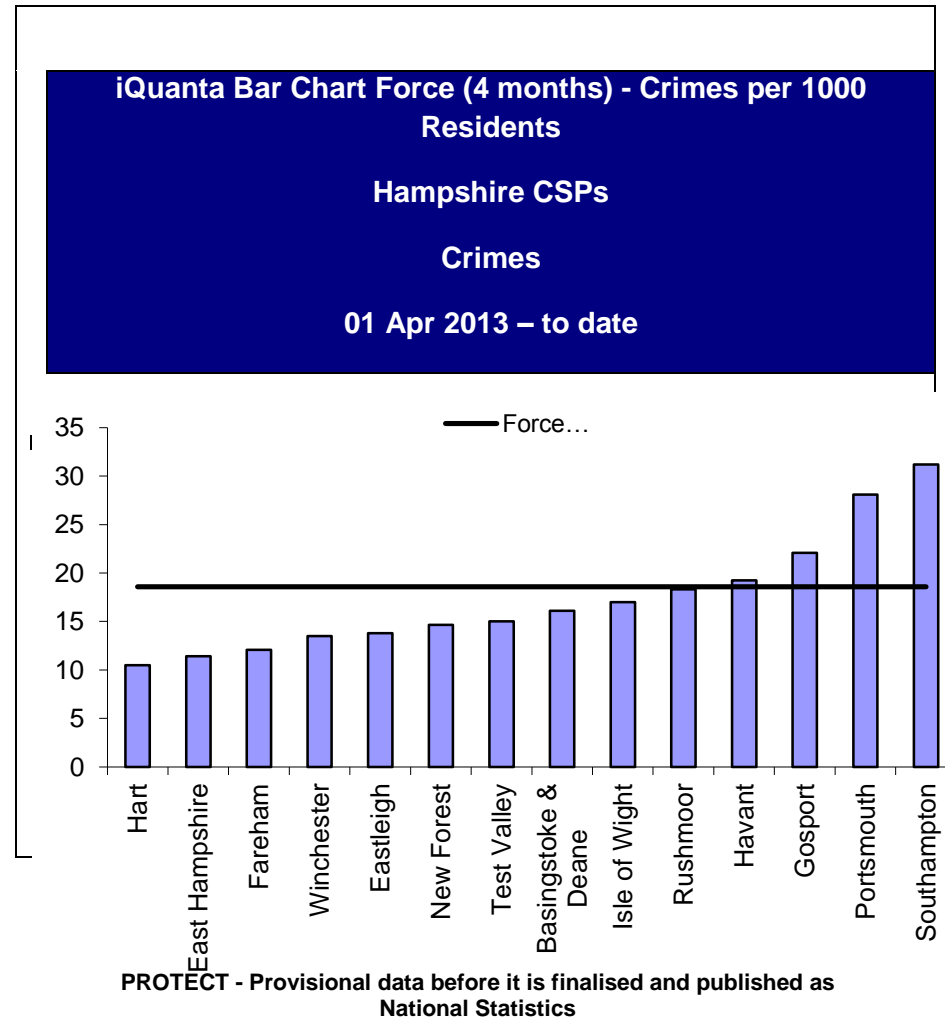

The key achievements that were delivered could be described as:

- Anti-Social Behaviour - reduction of 24.15% (931 occurrences) (previous year not comparable due to re-categorisation of ASB)
- Violence against the Person – reduction of 10.3% (106 incidents) (previous year reduction of 18.5% (230 incidents))
- Criminal Damage and Arson - reduction of 19.4% (192 incidents) (previous year increase of 1.9% (19 incidents))
- Other Theft and Handling – reduction of 14.1% (175 incidents) (previous year increase of 8.4% (106 incidents))

These reductions were achieved through a number of initiatives and actions that were contained within the Action Plan and these are summarised under each of the priorities that were contained within the strategy.

How do we compare to other Community Safety Partnership's?

The following chart shows that Fareham is the 3rd best performing CSP within Hampshire Force average is 18.597, Fareham average 12.079 crimes per 1000 residents. Fareham is also the 3rd best performing CSP within our Most Similar Family Group (MSG) in England and Wales.

Residents Survey

The most recent Fareham Residents Survey was conducted in 2013. The Residents survey was designed to provide a definitive picture of the views, perceptions and experiences of those who responded - the results are used by local public services to make sure their policies provide what residents want. It was established that:

- 90% thought that the police and Fareham Borough Council were successfully dealing with crime, antisocial behaviour and neighbour nuisance, compared to 88% in 2011 and 67% in 2009.
- 84% thought that teenagers hanging around in public places was not a problem, 10% more than in 2011
- 92% did not think there was a problem with people using or dealing drugs, 9% more than in 2011.
- 89% thought that people being drunk or rowdy in public places was not a problem, 9% more than in 2011.
- 86% of people did not think that feeling unsafe on a night out was a problem in Fareham.
- 99% of people thought there was no problem with abandoned or burnt out cars, compared to 95% in 2011.
- 91% did not think there was a problem with vandalism, graffiti and other deliberate damage to property or vehicles, 11% more than in 2011.

Although 90% of Fareham's residents thought that the police and Fareham Borough Council were successfully dealing with crime, antisocial behaviour and neighbour nuisance, there are still 10% of residents that have never heard of the good work the Partnership are undertaking. Therefore there is a need to further highlight and promote the successes and positive work that is being undertaken in making Fareham a safe and healthy place to live, work and visit.

Fareham Community Safety Partnership's Priorities 2014-2017

The Strategic Assessment 2013 identified that the priority areas that the Partnership should focus on are ;-

- 1. to provide public reassurance and community engagement**
- 2. to reduce anti-social behaviour**
- 3. to reduce crimes related to drugs and alcohol**
- 4. to reduce violent crime, including domestic abuse**
- 5. to prevent and reduce re-offending**

Between April 2014 and March 2017 Fareham's Community Safety Partnership will work to achieve the delivery of these priorities. The priorities will have a certain amount of overlap as the priorities cross crime boundaries. The actions contained within the Action Plan will be kept under review as this is a living and continually evolving document that will reflect the work required being undertaken in order to deliver the partnership's objective of making Fareham a safe place to live, work and visit.

Each of the Priority areas has a clear action plan which identifies how the initiatives will be delivered, who the lead agency is, how much funding is allocated to the initiative and finally who within the Community Safety Partnership will be responsible for ensuring performance is monitored and on track.

Looking ahead

Fareham will have to look to delivering the same, if not better results using less money. Resources are set to diminish and we will have to find better and more efficient and innovative ways of working. There will be occasions when joint initiatives and cross boundary working will have to be the way forward. Fareham's Community Safety Partnership will have to continually self-assess and look at the possibility of collaborative working with neighbouring CSPs. This is demonstrated by joint working with Gosport CSP with the ASB Panel, Environmental Health Partnership and Domestic Abuse Forum and delivering the Access All Areas initiative with Winchester CSP.

The Partnership needs to ensure that it considers best value and delivers value for money in a coordinated way, clearly identifying priorities to determine and deliver resources. The Partnership will have to identify final objectives and outcomes it wants to achieve and acknowledge that there will be cross cutting financial, social, departmental and strategic issues like health, housing, education and employment that will inevitably contribute toward reducing crime. The Partnership needs to be innovative in its approach and where appropriate pursue opportunities to co-locate and work closely with partners and agencies. Currently the Youth Offending Team, Department for Work and Pensions and the Integrated Offender Management Team are located in the same building as Fareham's Community Safety Team and other Council services, giving all partners a chance to achieve enhanced, co-ordinated partnership working and this is to be encouraged.

Fareham's Supporting Families Programme is the local programme that delivers Hampshire County Council's Supporting Troubled Families Agenda. Multi-agency working to deliver sustainable outcomes for families to improve anti-social behaviour and address criminal activity, improve attendance at school and get people back to work is the way forward. Community Safety Partners, County and District Council departments are working together with registered social landlords, the Department for Work and Pensions and educational establishments to provide a holistic approach to improve the lives of whole families. There are links between this Programme and one of Fareham Borough Council's corporate priorities, The Fareham Park Project.

Fareham's Community Safety Partnership has established good working practices with the Police and Crime Commissioner and the Clinical Commissioning Groups and these are excellent opportunities to develop further synergy and added value in the work that is being undertaken.

At present the Crime and Disorder Scrutiny function into the work of the Fareham Community Safety Partnership is carried out by the Council's Scrutiny Board and a report is made on an annual basis to the Board.

The delivery of this Strategy and Action Plan is not without its risks. Indeed these are financial risks which relate to the success of the funding bids that are made to the Police and Crime Commissioner and the ability of the partners to provide the necessary commitment and resources in order to deliver the actions contained within the Strategy. Partner organisations, including the Council are facing financial pressures, the Police are streamlining Safer Neighbourhood Policing Teams and Hampshire County Council has also recently announced the proposed loss of Accredited Community Safety Officers as of December 2014. Privatisation of the Probation Trust (Transforming Re-habilitation of Offenders) also needs to be closely monitored to ensure that this does not adversely impact upon the work of the partnership.

However there is no reason why the excellent work that has been undertaken to date cannot be maintained through this Strategy and Action Plan and make Fareham an even safer place in which to live, work and visit.

ACTION PLAN 2014-17

Priority 1 Public Reassurance & Community Engagement

What we did/achieved during the last Strategy;-

Attend all Community Action Team meetings, run a successful White Ribbon Campaign, deliver Ferneham Hall Community Safety Open Day, set up the Safer Fareham website, started engagement with Neighbourhood Watch, provided 3 articles for Fareham Today, utilise Council Connect to raise awareness of current community safety initiatives.
