

FAREHAM

BOROUGH COUNCIL

Report to Council

Date **21 January 2015**

Report of: **Director of Planning and Development**

Subject: **Welborne Plan Proposed Modifications**

SUMMARY

The hearing sessions, which formed part of the Welborne Plan Examination, closed in October 2014. Following the hearing sessions, the Inspector has issued his Preliminary Findings letter, which is set out as Appendix A to this report. This is part of the Examination process, which is still underway. The Inspector has indicated a number of areas of the Plan, relating to soundness, which the Council should address through the agreement of Main Modifications. In addition, Officers have identified a number of potential Minor Modifications which would improve the legibility and effectiveness of the document. This report sets out all of the proposed Modifications which are proposed to be published for public representations. This is an important step in moving towards receiving a final Inspector's Report on the Plan and subsequent decision regarding the adoption of the Plan.

RECOMMENDATION

- (a) that the proposed Main Modifications and Minor Modifications to the Local Plan Part 3: Welborne Plan, as set out in Appendix B, be published for a six-week representation period commencing on 26 January and concluding on 9 March 2015, together with supporting documents including a supplementary addendum to the Sustainability Appraisal and Habitats Regulation Assessment Reports;
- (b) that the Director of Planning and Development, in consultation with the Executive Member for Planning and Development, be authorised to make any necessary minor amendments to the proposed Main and Minor Modifications to the Plan, prior to publication for representations, provided that these do not change the overall direction, shape or emphasis of the documents, and do not raise any significant new issues;
- (c) that the Director of Planning and Development, in consultation with the Executive Member for Planning and Development, be authorised, following the completion of the subsequent representation period, to submit the proposed

Modifications to the Secretary of State together with full details of all representations received, along with a request under section 20(7) of the Planning and Compulsory Purchase Act 2004 for the Inspector to recommend to the Council Modifications to the Plan that would make it sound;

- (d) that the Director of Planning and Development, in consultation with the Executive Member for Planning and Development, be authorised to make any necessary minor amendments to the proposed Main and Minor Modifications to the Plan, prior to submission to the Inspector, provided that these do not change the overall direction, shape or emphasis of the documents, and do not raise any significant new issues; and
- (e) that the proposed Modifications to the Local Plan Part 3: Welborne Plan, be endorsed as interim guidance to be afforded due weight in the determination of planning applications.

INTRODUCTION

1. Further to the Council resolution of 13th February 2014, the Publication draft Welborne Plan was published for a period of public representations and submitted to the Secretary of State for Examination by an independent Inspector to consider whether the Plan has been prepared in accordance with the Duty to Cooperate, legal and procedural requirements, and whether it is sound.
2. The National Planning Policy Framework (NPPF) states that for a Plan to be “sound”, it should be:
 - Positively prepared – the plan should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements, including unmet requirements from neighbouring authorities where it is reasonable to do so and consistent with achieving sustainable development;
 - Justified – the plan should be the most appropriate strategy, when considered against the reasonable alternatives, based on proportionate evidence;
 - Effective – the plan should be deliverable over its period and based on effective joint working on cross-boundary strategic priorities; and
 - Consistent with national policy – the plan should enable the delivery of sustainable development in accordance with the policies in the NPPF.
3. Following submission of the Plan, a series of Examination Hearings took place, commencing on the 15th October and concluding on the 23rd October 2014. The Inspector has now considered the Plan and its associated supporting documents, representations made on the submitted Plan, the discussions at the hearing sessions and the subsequent written material submitted by the Council and other parties. He has now issued his preliminary findings letter based on the evidence he has read and heard.
4. This report sets out actions following the Inspector’s preliminary findings letter, which have been published on the Council’s website and included as Appendix A to this report.

WELBORNE PLAN – EXAMINATION HEARINGS

5. At the Examination Hearings, the Inspector indicated a number of areas where he considered the Plan would need to be changed before it could be considered sound. Under the direction of the Inspector, as part of the Examination process, Council Officers prepared a number of documents in response to his concerns which were published on the Council’s website during and after the Examination Hearings. These were the subject of a further two week informal consultation, undertaken on behalf of the Planning Inspector, where all parties who had made a representation on the Welborne Plan were invited to respond. Those responses were forwarded to the Inspector for his consideration before he issued his preliminary findings letter.

PRELIMINARY FINDINGS

6. The Inspector’s preliminary findings letter identifies a number of points relating to soundness which the Council should address through the agreement of Main Modifications. These all concern issues where the Inspector has already indicated to Officers at the Examination Hearings that a change to the Plan was required. Therefore

in each case a response to the required change has already been drafted by Officers at the Inspector's request and informally consulted upon on his behalf.

7. Main Modifications are a common feature in Local Plan Examinations. The Borough's Core Strategy was also subject to Modifications prior to it being deemed sound in 2011. It should be noted that the proposed Main Modifications do not concern the overarching vision for Welborne, but address issues of how the Plan may be made sound.
8. In total, 23 modifications are listed by the Inspector. They include –
 - A commitment to a Review of the Local Plan;
 - The allocation of a single site for a secondary school close to the District Centre;
 - Directing the provision of the new Household Waste Recycling Centre in the employment area in the southern part of the site to the west of the A32, rather than leaving the location undetermined;
 - Production of a new Phasing Plan to be included within Chapter 10 of the Plan;
 - Removal of references to the deferral of infrastructure provision; and
 - Clarification regarding monitoring and review.
9. Following the Inspector's Preliminary Findings, the Council now need to consider the proposed Modifications to the Plan in order to proceed with the next stage of the Examination process.

MODIFICATIONS TO THE PLAN

10. As outlined in paragraph 4 above, for each of the proposed Main Modifications to the Plan identified by the Inspector, an amendment to the Plan has been drafted. In addition, during the course of the Examination Officers have identified a number of additional, more minor areas where the Plan could be improved by changes which do not relate to "soundness" but nonetheless improve the Plan, which are referred to as proposed Minor Modifications. These include changes arising as a consequence of the proposed Main Modifications, updates, minor amendments to the supporting text and other changes which the Inspector has determined would not constitute Main Modifications. Both the proposed Main Modifications and proposed Minor Modifications are set out in Appendix B to this document. Appendix B therefore contains all of the proposed changes to the text of the Welborne Plan.
11. In addition, Appendix C to this Report sets out the revised Strategic Framework Diagram and Policies Map resulting from the Inspector's Main Modification regarding the allocation of a single site for a secondary school close to the District Centre. These diagrams are proposed to form Appendix B.2 and B.3 of the Welborne Plan respectively.
12. Finally, Appendix D to this report contains an addendum to the Sustainability Appraisal and Habitats Regulations Assessment to the Welborne Plan as revised by the proposed Main Modifications.

NEXT STEPS

13. Should Members endorse these changes, then both the proposed Main Modifications and the Minor Modifications to the Plan set out in Appendix B will be published for public representations commencing on 26 January and concluding on 9 March 2015.
14. Following the period of representations the Council must forward all representations received, a brief response to the submissions received, including potentially any additional changes, along with a short commentary on any implications of the Main Modifications in terms of the sustainability appraisal, to the Inspector. The Council may then issue the Inspector with a formal request under section 20(7C) of the Planning and Compulsory Purchase Act 2004 (as amended) for him to recommend Modifications to the Welborne Plan that would make it sound.
15. Following that, the Inspector will finalise his report and confirm what changes to the Plan are required to make the Plan sound. These changes will be reported back for Member approval before the Plan can be adopted.

RISK ASSESSMENT

16. If the Council decides not to proceed with the proposed Modifications as directed by the Inspector then the Welborne Plan will not be found sound. Failure to deliver a sound Welborne Plan would mean that the vision for development in the Borough, as set out in the adopted Core Strategy would not be completed.
17. The Welborne Plan is required to set out the expectations of the Council and other key bodies when considering future planning applications for Welborne, expected later this year. In addition to determining applications at Welborne, an up to date planning strategy will assist the Council in resisting unnecessary and undesirable development elsewhere in the Borough.

RECOMMENDATION

18. That the following recommendations be considered by Council:
 - (a) that the proposed Main Modifications and Minor Modifications to the Local Plan Part 3: Welborne Plan, as set out in Appendix B, be published for a six-week representation period commencing on 26 January and concluding on 9 March 2015, together with supporting documents including a supplementary addendum to the Sustainability Appraisal and Habitats Regulation Assessment Reports;
 - (b) that the Director of Planning and Development, in consultation with the Executive Member for Planning and Development, be authorised to make any necessary minor amendments to the Main and Minor Modifications to the Plan, prior to publication for further representations, provided that these do not change the overall direction, shape or emphasis of the documents, and do not raise any significant new issues;
 - (c) that the Director of Planning and Development, in consultation with the Executive Member for Planning and Development, be authorised, following the completion of the representation period, to submit the proposed modifications to the Secretary of State together with full details of all representations received along with a request under section 20(7) of the Planning and Compulsory Purchase Act 2004 for the Inspector to recommend Modifications to the Plan that would make it sound;

- (d) that the Director of Planning and Development, in consultation with the Executive Member for Planning and Development, be authorised to make any necessary minor amendments to the proposed Main and Minor Modifications to the Plan, prior to submission to the Inspector, provided that these do not change the overall direction, shape or emphasis of the documents, and do not raise any significant new issues; and
- (e) that the proposed amendments to the Local Plan Part 3: Welborne Plan, be endorsed as interim guidance to be afforded due weight in the determination of planning applications.

Appendices:

- Appendix A:** Inspector's Preliminary Findings on the Welborne Plan (Welborne Plan Examination document reference ID-18)
- Appendix B:** Proposed Modifications to Welborne Plan Submission Version
- Appendix C:** Revised Strategic Framework Diagram and Policies Map as amended by Main Modification MM9
- Appendix D:** Addendum to the Sustainability Appraisal and Habitats Regulations Assessment for the Welborne Plan

FAREHAM LOCAL PLAN PART 3: THE WELBORNE PLAN MAIN MODIFICATIONS

INSPECTOR'S PRELIMINARY FINDINGS

This note is without prejudice to any final Report that I may prepare but based on the evidence that I have read and heard I consider there are a number of shortcomings in the document, relating to soundness, which the Council should address through the agreement of Main Modifications (MMs). They all relate to issues that were discussed at the Hearings and are summarised in the table below:

	Policy/Para	Modification	To Meet Soundness Criteria:
MM1	Para 1.29	Commitment to a Review of the Local Plan	Consistent with national policy
MM2	WEL2	New first bullet point and amendment to the 6 th bullet point (4 th sub-bullet) in relation to emphasising the relationship between Welborne and Fareham to the south	Justified
MM3	WEL5	Clarification regarding consideration of settlement buffers	Justified
MM4	WEL6	Add a criterion relating to noise, light pollution and air quality	Justified
MM5	WEL6	Take measures to ease pedestrian/cycle movement across the A32	Justified
MM6	WEL7	Clarification regarding strategic design codes	Justified
MM7	Para 5.17	Clarification regarding the Council's approach towards office development	Justified
MM8	WEL10 and WEL11	Clarification regarding Impact Assessments for retail and leisure development	Justified
MM9	WEL16	Allocate a single site for a secondary school close to the District Centre	Justified
MM10	WEL18	Clarification regarding affordable housing provision	Effective
MM11	WEL23	Promote development that looks to the south for its main highway links	Justified

MM12	Para 7.24	Introduction of flexibility regarding access links to the A32	Justified
MM13	Para 7.27	Clarification regarding traffic management on the A32	Justified
MM14	WEL25	Clarification regarding principal access being from the south	Justified
MM15	WEL29	Clarification regarding allotment provision	Positively prepared, justified and effective
MM16	WEL33 (as set out in CD-46)	Structural planting including the protection of long-distance views including from Portsdown Hill	Justified
MM17	WEL36	Clarification regarding optimising energy efficiency	Positively prepared, justified and effective
MM18	WEL37	Clarification regarding water efficiency, supply and disposal	Justified
MM19	WEL39	Clarification regarding flood risk and sustainable drainage systems	Effective
MM20	WEL40	Allocation of a site to the west of the A32 for a household waste collection centre	Effective
MM21	WEL41 and supporting text	New phasing plan	Effective
MM22	WEL41	Remove references to the deferral of infrastructure provision	Justified and effective
MM23	Para 11.5 and 11.6	Clarification regarding monitoring and review	Effective

Following consultation on the MMs the Council should send me a copy of the submissions received; a brief response to those submissions and a short commentary on any implications of the MMs in terms of the sustainability appraisal.

There are a small number of other changes being proposed by the Council (following the hearing sessions) but they are minor in nature and therefore not before me for consideration.

On this basis I am therefore inviting the Council, once it has considered the responses to the consultation on the MMs, to make a formal request under section 20(7C) of the Planning and Compulsory Purchase Act 2004 (as amended) for me to recommend Modifications to the plan that would make it sound.

David Hogger

Inspector

22nd December 2014

Appendix B

This appendix comprises a schedule of all changes that are proposed to the Welborne Plan Submission Version (June 2014) (Welborne Examination Document Reference SD01). The changes proposed in this document have arisen through the Council's Statements on the Inspector's Issues and Questions, through discussion during the Examination Hearing sessions and through the Council's responses to the Inspector's request for Additional Material. Both Part A and Part B of this schedule identify the source of the change in the 'Reason for Change' column.

This appendix comprises:

Part A – Main Modifications	Part B – Minor modifications
<p>This part comprises any changes to the Plan considered necessary to enact the Main Modifications identified by the Inspector in his Preliminary Findings letter. All of these changes will be considered as part of the Examination and will be subject to a six-week period for Public representations commencing 26 January 2015.</p>	<p>These are additional modifications to the Plan which do not directly relate to “soundness” but nonetheless improve the Plan. They include changes arising as a consequence of the proposed Main Modifications, updates, minor amendments to the supporting text and other changes which the Inspector has determined would not constitute Main Modifications. For clarity, these have been recorded and published and will also form part of the six-week period for Public representations commencing 26 January 2015. The additional modifications include a large number of changes to Chapters 6, 10 and 11. To aid clarity, those modifications are set out in Parts B1, B2 and B3 of this Appendix.</p>

All changes are shown as additional text underlined and deleted text ~~struck through~~.

Part A – Main Modifications

This part comprises any changes to the Plan considered necessary to enact the Main Modifications identified by the Inspector in his Preliminary Findings letter. All of these changes will be considered as part of the Examination and will be subject to a six-week period for Public representations commencing 26 January 2015.

		<p>tenure split will be kept under review based on evidence of need.</p> <p><u>Each residential phase of development shall be expected required to meet the target of 30% affordable housing provision unless a robust and transparent viability appraisal proving this not to be possible is accepted by the Council.</u></p> <p><u>In exceptional circumstances where viability considerations require, the minimum affordable housing numbers on any phase will be 10% (subject to viability and the implications for other infrastructure) and the maximum required will not normally exceed 40%.</u></p> <p><u>Where it is agreed that a residential phase will not meet the 30% target of affordable housing, the subsequent phase or phases will be expected required to meet that shortfall in addition to the 30% target if possible in viability terms.</u></p> <p><u>The initial tenure split will be 70% affordable or social rent and 30% intermediate tenures. The tenure split will be kept under review phase by phase based on evidence of need and viability.</u></p> <p>A range of affordable housing types, sizes and tenures shall be delivered within each residential phase. The precise number and mix of affordable homes within each phase shall be agreed with the Council, having regard to the nature of the phase to be developed, and the identified need for affordable homes <u>and its viability</u> at the time the phase comes forward.</p> <p>Approximately 15% of all affordable homes delivered within each phase of the development shall be designed to meet higher accessibility standards equivalent to the Lifetime Homes standards.</p>	affordable housing.	<p><i>discussed further during the Issue 10 hearing session with the subsequent changes proposed in the Council's Additional Material Statement CD-43.</i></p>

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
		<p>The precise proportions shall reflect evidence of <u>need</u> demand at the time the phase comes forward and will be subject to the need to ensure that the phase remains economically viable.</p>		
		<p>Planning permission will be granted for affordable homes that are integrated with the market housing, within the overall limits set out below, and are designed and will be constructed to the same or higher standards. Affordable housing may be clustered in small groups.</p>		
		<p>Each residential phase of development shall be expected to meet the target requirements (set out in the first paragraph of this policy) unless a robust and transparent viability appraisal proving this not to be possible is accepted by the Council. In such cases, the Council will consider alternative delivery mechanisms including the Joint Venture Housing Company (JVHC). Where such alternative delivery mechanisms are not viable, feasible or desirable, flexibility may be applied to the target level requirements within this policy, consistent with the Council's deferral of contributions policy (See WEL41 and the Welborne Planning Obligations SPD). Where a case for deferral is accepted, the absolute minimum level of affordable housing within any residential phase of development will be 10%.</p>		
		<p>Where an agreed deferral of affordable housing results in any residential phase of the development not meeting the 'normal' target requirements of this policy, subsequent phases will be expected to provide affordable housing deferred from the previous phase(s). This will be in addition to meeting that phase's own normal 'target' provision, but will be subject to an overall maximum level of 40% of the housing within any one phase being delivered as affordable housing.</p>

	Paragraphs 10.6 – 10.23	<p data-bbox="510 292 703 323">Phasing Plan</p> <p data-bbox="510 368 1581 804"><u>The delivery of housing and employment floorspace is dependent upon a range of factors including market conditions. The Council recognises that the site promoters have aspirations for the early delivery of employment floorspace which is in excess of the indicative employment development trajectory set out in Table 10.2 of this Plan. The Council is supportive of early delivery of employment floorspace should sufficient market demand exist and suitable infrastructure is in place. However, the Phasing Plan set out below, and the monitoring framework in Chapter 11 is based on the indicative trajectory for employment floorspace which has arose from the evidence available in the Welborne Employment Strategy and set out in Table 10.2. The description of employment land phasing is not an absolute cap on what may be achievable in each phase.</u></p> <p data-bbox="510 847 1581 954">10.5 Main Phase 1 (2015 – 2019) <u>Commencement on site, initial major infrastructure and local road mitigation.</u></p> <p data-bbox="510 997 741 1029"><u>Key outcomes –</u></p> <ul data-bbox="510 1038 1581 1257" style="list-style-type: none"> <li data-bbox="510 1038 1581 1102">• <u>Approximately 500 homes located adjacent to the District Centre and to the north of Knowle Road.</u> <li data-bbox="510 1112 1055 1144">• <u>1,000 sq. m employment floorspace</u> <li data-bbox="510 1153 1581 1217">• <u>District Centre commencement including the foodstore, and initial community facility</u> <li data-bbox="510 1227 969 1259">• <u>Local Centre commencement</u> <p data-bbox="510 1302 887 1334"><u>Necessary Infrastructure –</u></p> <ul data-bbox="510 1343 1581 1445" style="list-style-type: none"> <li data-bbox="510 1343 1581 1407">• <u>Initial works to Junction 10 of M27, including access from the A32 and associated roads</u> <li data-bbox="510 1417 1095 1449">• <u>Local Highway Network Improvements</u> 	from the Inspector.	<i>session with modifications subsequently proposed in the Council's Additional Material Statement CD-44.</i>

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
----------	-----------	----------------------------	-------------------	------------------------

- Enhanced public transport
- Pedestrian and cycle links
- Initial utilities strengthening
- Diversion of large diameter water mains
- Initial primary school provision
- Green Infrastructure, including SANGS
- Initial structural planting
- Sustainable Drainage systems

This main phase represents initial site preparation and the delivery of infrastructure required to unlock the early stages of development. Increased capacity in utilities infrastructure and the road network will be required before the next phase can be commenced. For roads, this will include site accesses from the A32 and Knowle Road, as well as initial improvements to the existing eastbound on-slip to Junction 10 of the M27. In relation to utilities, the primary electricity sub-station required to serve Welborne will need to be completed as well as the provision of sufficient foul water disposal capacity to serve at least the initial and following main phase, ~~potentially including a new trunk sewer to Peel Common Waste Water Treatment Works.~~ In addition, Portsmouth Water will have to divert an existing large diameter water main to allow this site to be developed, though the works along the A32 provide the opportunity for a service corridor to be delivered at the same time as the proposed road improvements. Similarly, a high pressure water main to the south of the site is likely to require diversion in this or the next phase of development with the new north-south link providing the opportunity for a service corridor to be created in this part of the site.

10.6 Development within this initial phase will focus on ~~areas close to the A32, with commencement to the District Centre likely. A start may also be made on the construction of the Local Centre, to the north of the Knowle~~

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
		<p>Road, which would help support new residential development in that area. In total, approximately 500 home completions are anticipated during this main phase, close to the A32 both north and south of the Knowle Road and around the Local and District Centres, and will entail the delivery of residential, employment and retail floorspace. North of Knowle Road, the Local Centre will start to be developed, some initial retail units and residential areas. In the southern part of the site, the District Centre will be commenced with the foodstore, some shops and initial community facility. Initial primary school provision will be made. Some 1,000 sq. m of employment floorspace is anticipated in this phase in the southern part of the site, west of the A32. An early start of employment space for small businesses, including the incubation centre is envisaged, which will help support self-containment. In total, approximately 500 home completions are anticipated during this main phase, close to the Local and District Centres. If more homes and employment space can be delivered over this period this will be encouraged.</p>		
		<p>10.7 During this phase, Welborne's green corridor network will begin to be delivered, concentrating initially on enhancements to existing links which relate to the areas being developed at this stage and securing key green infrastructure assets, including pedestrian and cycle links to important destinations including secondary schools off site. Sufficient SANGS will need to be delivered, in this and subsequent phases prior to residential development, to support the avoidance or mitigation of potential damage to sensitive sites. Similarly, complimentary green infrastructure, including open space and playing fields will need to be delivered in each phase to serve the growing community.</p>		
		<p>10.8 Main Phase 2 (2019-2022) <u>Completion of Junction 10 of the M27, development around the district and local centres.</u></p>		

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
----------	-----------	----------------------------	-------------------	------------------------

Key outcomes –

- 1,000 homes
- 5,850 sq. m employment floorspace
- District Centre completed
- Local Centre completed

Critical Infrastructure –

- Upgrade to Junction 10 of M27 complete
- Physical works required to deliver BRT to the site
- Enhanced public transport
- District Community Centre
- Pedestrian and cycle links
- Initial playing pitches and sports provision
- Green Infrastructure, including SANGS
- Sustainable Drainage systems

The second main phase will see the pace of development and investment in infrastructure increase. ~~Key pieces of infrastructure required in this phase are the first primary school, early in the phase and the upgrade to Junction 10 of the M27 to provide an all-moves junction, by the end of the phase~~ will be the completion of the upgrade to Junction 10 of the M27 to provide an all-moves junction. ~~Both~~ This will be required to be fully operational before the next main phase can commence. The main internal road network will begin to take shape during this phase.

10.9 During the second main phase, development will continue north of Knowle road, including at ~~both the District and Local Centres which will be at least partially completed by the end of the phase.~~ It is also anticipated that the redevelopment of the Crockerhill site will commence during this

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
		<p>phase Local Centre and near the District Centre, both of which will be at least partially completed by the end of the phase. By the end of this phase some 1,500 dwellings will have been completed at Welborne.</p>		
		<p>10.10 Employment development during this phase will be focused south of the District Centre, to the west of the A32, with the potential for a Business Incubation Centre to promote promoting indigenous economic growth within the new community, <u>supported by a training and skills programme.</u> <u>Development of this part of the site provides the opportunity to lay out the new north-south link and other elements of the new internal road network, providing the opportunity to move water mains and other services to suitable alignments.</u></p>		
		<p>10.11 The first primary school is expected to be delivered relatively early in this main phase, located adjacent to the Local Centre. It is anticipated that the development of the District Centre during this main phase will include the main community building, linked to shared facilities in the primary school which will provide a range of community facilities that are needed to support the early residents, including the opportunity for health care and other services to be provided at Welborne prior to bespoke facilities being constructed. It is also anticipated that the main foodstore for Welborne will be developed during this phase which will both help support self-containment and will provide support for the economic viability of development. Providing these facilities and services early during these early phases will be crucial for establishing a sense of place for Welborne at the outset and providing a focus for new residents and visitors.</p>		
		<p><u>This phase also provides the first opportunity to deliver a Household Waste Recycling Centre.</u></p>		
		<p>10.12 The green corridor network and the first significant green open</p>		

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
----------	-----------	----------------------------	-------------------	------------------------

spaces will be delivered during this second strategic main phase. Towards the end of this period, local work is anticipated to begin on formalising the main central park to ensure that the growing number of residents have sufficient formal green infrastructure. ~~In addition, Fareham Common will need to be laid out to achieve SANGS standards out during this this phase, with access provided from Welborne and from north Fareham.~~

10.13 Main Phase 3 (2022-2026)

Central part of the site and main internal road network

Key outcomes –

- 1,360 homes
- 18,500 sq. m employment floorspace
- District Centre development
- Local Centre development

Critical Infrastructure –

- Enhanced public transport
- Primary care centre
- Secondary School
- Second primary school
- Pedestrian and cycle links
- Green Infrastructure, including SANGS
- Central Park
- Sustainable Drainage systems

The third main phase will see the development start to take shape as significant residential and employment areas and community facilities are delivered. Key pieces of infrastructure required by the end of this main phase include the second primary school, the primary care health

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
		<p>centre(s), the central park and the on-site routing for the Bus Rapid Transit (BRT) service. These will all be required before the next main phase can commence.</p>		
		<p>10.14 Residential development during the third main phase will continue to the north and east of the central park, and will begin to develop to the west of the park, with the main internal spine road network route providing access and BRT services to key areas including the new secondary school <u>mainly be located in the centre of the site, taking shape around the central park.</u> The new north-south route parallel to the A32 will also be completed. <u>The main internal spine road network route providing access and BRT services to key areas will be delivered, including the new north-south route parallel to the A32.</u> During this phase, at least one supported housing scheme, such as extra care accommodation, is expected to be completed. <u>Residential development at the Crockerhill Industrial Park, to the east of the A32, is also anticipated in this phase.</u> Overall, by the end of this main phase, some 2,860 homes will have been delivered at Welborne.</p>		
		<p>10.15 The main employment areas to the south of the central park will continue to be developed during the third main phase. This is likely to focus on the area to the west of the A32, potentially including the employment areas closest to the District Centre. The District Centre itself (as well as the Local Centre) should have been completed by the end of this phase.</p>		
		<p>10.16 This phase also provides the first opportunity to deliver a Household Waste Recycling Centre within one of the employment areas to the west of the A32.</p>		
		<p>10.17 The green corridor network will be continued during this main phase and the central park will be expected to be substantially complete by the end of this phase to ensure both that the growing number of residents</p>		

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
		<p>benefit from this key strategic open space and also to ensure that the new secondary school is well connected by sustainable travel routes to the completed housing areas east of the park.</p> <p>10.18 Main Phase 4 (2026-2030) <u>Completion of residential development to the west of the A32 and commencement to the east</u></p> <p><u>Key outcomes –</u></p> <ul style="list-style-type: none"> • <u>1,360 homes</u> • <u>24,500 sq. m employment floorspace</u> • <u>District Centre development</u> • <u>Local Centre development</u> <p><u>Critical Infrastructure –</u></p> <ul style="list-style-type: none"> • <u>Third primary school</u> • <u>Community hub</u> • <u>Pedestrian and cycle links</u> • <u>Green Infrastructure, including SANGS</u> • <u>Sustainable Drainage systems</u> <p>Main Phase 4 is anticipated to involve considerable residential development to the west of the central park and is also likely to see the completion of residential areas north of Knowle Road and north of the site. In addition, the areas of housing east of the A32 are likely to be commenced during this main phase. Finally, the redevelopment of the Dean Farm area from employment to residential is expected to take place during this main phase. By the end of Main Phase 4 about 4,220 homes will have been completed at Welborne. <u>Development of the western part of the site (north of Funtley) will need to accommodate the future provision of a new rail halt on the Fareham to Eastleigh rail line, unless it is</u></p>		

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
		<p><u>demonstrated that it is not technically feasible or viable to deliver this before the end of the Plan period.</u></p> <p>10.19 With respect to <u>other</u> infrastructure, the key items to be delivered during this phase include the third primary school and the completion of the Community Hub. This phase will also need to include the completion of a range of green infrastructure assets, including the community playing pitches and the laying out of the strategic green infrastructure areas, adjacent to the Welborne site, to SANGS standards.</p> <p>10.20 A significant quantity of employment floorspace is likely to be completed during Main Phase 4, potentially amounting to about 24,500 square metres. However, the net employment floorspace added during this period <u>At some point in the development, the total employment net floorspace delivered</u> will be reduced due to the expected loss of about 14,000 square metres to residential development at Dean Farm.</p> <p><u>In addition, development will also commence to the east of the A32, with main road infrastructure and residential development commencing to the north of Roche Court.</u></p> <p>10.21 Main Phase 5 (2030-2036) <u>Development of eastern part of the site</u></p> <p><u>Key outcomes –</u></p> <ul style="list-style-type: none"> • <u>1,780 homes</u> • <u>25,000 sq. m employment floorspace</u> • <u>District Centre development</u> • <u>Local Centre development</u> <p><u>Critical Infrastructure –</u></p>		

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
----------	-----------	----------------------------	-------------------	------------------------

- Enhanced public transport
- Pedestrian and cycle links
- Green Infrastructure, including SANGS
- Sustainable Drainage systems

The final strategic phase will see ~~Welborne substantially completed, with residential development at the west and north of the site being finalised, in addition to the completion of housing east of the A32, residential development to the east of the A32 completed~~ both north and south of Roche Court. By the end of Main Phase 5, approximately 6,000 homes will have been completed.

10.22 Employment land will continue to be developed during Main Phase 5, both east and west of the A32. Depending on take up, it is expected that by the end of this phase a net additional employment floorspace of about 60,000 square metres will have been completed at Welborne. However, even with strong take-up, it is not likely that all of Welborne's employment development will have been completed by 2036. Therefore, it is expected that a further 23,500 square metres of floorspace will be completed in the years following Main Phase 5.

10.23 There are no other strategic infrastructure items phased to be completed during Main Phase 5. ~~However, if any infrastructure from earlier phases has been delayed for any reason, this phase provides the opportunity to deliver these. In addition, where specific sites within Welborne have been 'safeguarded' in accordance with Policy WEL42 below, those sites may be released for alternative uses at the start of this phase.~~

Amendment to paragraphs 1-4 of Policy WEL41:

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
MM22	Page 133, Policy	<p>Initial planning applications for development at Welborne shall be accompanied by a detailed phasing plan and strategy for implementation of infrastructure delivery plan for the whole Welborne development. This phasing plan and <u>infrastructure delivery plan</u> implementation strategy will be guided by the Phasing Plan (set out within the <u>Concept Masterplan Phasing Plan Chapter 10 of the Welborne Plan</u>) and by the Infrastructure Delivery Plan that supports this plan. Once approved by the Council, the detailed phasing plan and <u>infrastructure delivery plan</u> implementation strategy will be kept under review over the life of the development, with changes being submitted to the Council for approval alongside relevant planning applications.</p> <p>The phasing of development <u>and associated infrastructure</u> at Welborne shall be in accordance with the agreed detailed phasing plan and infrastructure delivery plan implementation strategy, unless it can be demonstrated that suitable appropriate infrastructure is available and the development can be adequately serviced.</p> <p>Some overlapping between one main phase and another may be acceptable, providing it can be demonstrated that the earlier main phase has been substantially completed and that any key infrastructure items, upon which the later phase depends, have been fully delivered.</p> <p>Proposals which would result in the delivery of unsustainable and isolated development, or that would place an adverse impact on the amenity of existing residents, for example by creating an infrastructure deficit, will be refused.</p>	To remove references to the	<i>Proposed in the Council's</i>

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
	WEL41	<p>Where, following an independently tested viability assessment, a deficit in the infrastructure (or affordable housing) provision necessary to serve any main phase of the development is accepted, the Council will employ its 'deferral of contributions policy', as set out within the Welborne Planning Obligations SPD. The objective of this policy will be to claw back any agreed deficit, subject to market conditions improving sufficiently to trigger the claw-back element of the policy.</p>	<p>deferral of infrastructure contributions and to improve clarity.</p>	<p><i>Statement on Inspector Issue 11 CD-18.</i></p>
MM23	<p>Pages 138, Paragraphs 11.5 - 11.6</p>	<p><i>Amendments to provide clarification on monitoring and review:</i></p> <p>11.5 Monitoring the outcomes of the policies in the Welborne Plan will be undertaken on a regular basis to enable early action to be taken to overcome any barriers to delivery of the plan's objectives and policies. <u>The Phasing Plan contained within Chapter 10 of this document sets out the key outcomes and critical infrastructure identified for each of the main phases of development. This has been produced to inform the understanding of the Plan, using the best information available. It should be recognised that the mechanism which will deliver Welborne, including critical infrastructure, will be the phasing plan, infrastructure delivery plan and s106 planning agreement approved alongside planning application(s) for the site. Nonetheless, the phasing plan in Chapter 10 provides a useful guide to the Council's expected outcomes, including infrastructure.</u></p> <p>11.6 Where appropriate, Borough-wide targets which are monitored through the Council's Authority Monitoring Report (AMR) will be broken down and applied to the Welborne Plan area, so that the contribution of Welborne to Borough-wide targets can be seen on a local scale. <u>Strategic Group meetings will be undertaken on a regular basis throughout the year to enable early action to be taken to overcome any barriers to delivery of the Plan's objectives and policies. Particular reference will be made to the key outcomes and critical infrastructure listed in the Phasing Plan in Chapter 10 of this Plan. Any risk to the timely delivery of either will be</u></p>	<p>To reflect the Inspector's concern that the Monitoring and Review section of the Plan should be made clearer, the Council has made significant modifications which set out the key elements of the monitoring and review mechanism for the project.</p>	<p><i>Discussed in the Issue 11 hearing session with modifications subsequently proposed in the Council's Additional Material Statement CD-44.</i></p>

Mod Ref:	Plan Ref.	Proposed Main Modification	Reason for Change	Source of modification
		<u>reported as an entry in the Delivery Risk Register which will be created and reviewed at the Group meetings. Given the wider public interest in the delivery of the Welborne project, it will be appropriate for changes in the Delivery Risk Register for Welborne to be reported to the Welborne Standing Conference as and when they arise and included in the Council's Authority Monitoring Report.</u>		

Part B – Minor Modifications

These are additional modifications to the Plan which do not directly relate to “soundness” but nonetheless improve the Plan. They include changes arising as a consequence of the proposed Main Modifications, updates, minor amendments to the supporting text and other changes which the Inspector has determined would not constitute Main Modifications. For clarity, these have been recorded and published and will also form part of the six-week period for Public representations commencing 26 January 2015. The additional modifications include a large number of changes to Chapters 6, 10 and 11. To aid clarity, those modifications are set out in Parts B1, B2 and B3 of this Appendix.

Mod Ref:	Plan Ref.	Proposed Minor Modification	Reason for Change
AM27	Page 46, Paragraph 4.23	<p data-bbox="600 248 1352 280"><i>Insert new paragraph below existing paragraph 4.23:</i></p> <p data-bbox="600 325 1749 727"><u>It is recognised that at the time of submission of an outline planning application for Welborne, the design process may not be sufficiently advanced to enable the Strategic Design Codes to be provided. Policy WEL7 therefore, allows for the Strategic Design Codes to be submitted with subsequent detailed or reserved matter planning applications. Where Strategic Design Codes are not submitted with an outline planning application, high-level development principles will instead be provided to describe the design assumptions behind the key elements of the Structuring Plan. The development principles will guide all subsequent masterplans, detailed applications and the Strategic Design Codes by demonstrating how the following elements could function in technical and design terms:</u></p> <ul data-bbox="600 772 1111 959" style="list-style-type: none"> <li data-bbox="600 772 1066 804">• <u>Green and blue infrastructure;</u> <li data-bbox="600 810 976 842">• <u>Access and movement;</u> <li data-bbox="600 849 779 880">• <u>Land use;</u> <li data-bbox="600 887 1111 919">• <u>Building heights and density; and</u> <li data-bbox="600 925 878 957">• <u>Character areas.</u> 	To provide additional clarification on the role and timing of Strategic Design Code.
AM28	Page 55, Paragraph 5.24	<p data-bbox="600 983 1088 1015"><i>Addition to end of paragraph 5.24:</i></p> <p data-bbox="600 1059 1749 1126"><u>All car and cycle parking in employment areas should be provided in accordance with the Non-Residential Car and Cycle Parking SPD.</u></p>	Explain role of Non-Residential Car and Cycle Parking SPD.
AM29	Pages 56-57, Policy WEL9 - item iii	<p data-bbox="600 1150 1749 1254">iii. Provide sufficient parking to cater for the needs of the employment development in accordance with the Non-Residential Car and Cycle Parking SPD;</p>	Remove reference to SPD from policy – change PM502 places reference in supporting text.

Mod Ref:	Plan Ref.	Proposed Minor Modification	Reason for Change
AM30	Page 61, Policy WEL10 - 5 th paragraph	<p>The District Centre shall be well connected to the employment areas, to the central park and to Welborne's residential areas through attractive and direct walking and cycle routes which make use of the green corridor network where possible. Bus stops shall be provided at the District Centre for local services and for the BRT. These bus stops shall be located in a highly visible and accessible position within the District Centre. Adequate parking for each use will need to be provided, in accordance with the Borough's Residential Car and Cycling Parking Standards SPD and the Non-residential Car and Cycle Parking Standards SPD.</p>	Remove reference to SPD from policy – paragraph 5.37 already explains role of SPD in supporting text.
AM31	Page 62, Paragraph 5.51 - 3 rd & 4 th sentences	<p>Where being proposed, these sorts of services <u>All planning applications for retail and leisure services within the Local Centre</u> will be required to demonstrate, through robust impact assessments that they will not give rise to significant adverse impacts on Fareham Town Centre or Wickham's centre. Impact assessments will also need to demonstrate <u>that retail and leisure proposals the Local Centre will be consistent with the role of the Local Centre and its place within Fareham's hierarchy of centres overall will serve to complement the function of the District Centre</u> and will not adversely compete with it <u>the District Centre</u> or with Wickham's centre.</p>	To provide clarity on how impact assessments will be assessed.
AM32	Page 73, Paragraph 5.91	<p>The Strategic Framework Diagram (Appendix B.2) identifies the indicative location of the secondary school, at the western edge of the new community, immediately north of the District Centre, with the majority of its playing fields within the Knowle Triangle which is within Winchester City Council's area. The approximate location of the school is also indicated with a symbol on the Fareham Policies Map, <u>an extract of which is presented at and on Appendix B.3 of this plan.</u> This location emerged from the concept masterplanning work and from extensive engagement with the relevant landowners, Hampshire County Council, Winchester City Council and others <u>local communities.</u></p>	To reflect the change in location of the Secondary School.

Mod Ref:	Plan Ref.	Proposed Minor Modification	Reason for Change
AM33	Page 73, Paragraph 5.92	<p>The location is designed to be highly accessible by sustainable travel modes from the main residential areas at Welborne, west of the A32, <u>and would provide additional footfall around the district centre. Furthermore, this location will also provide opportunities for a primary school to be delivered in close proximity to the secondary school.</u> It is also focussed on supporting the Community Hub as the smallest of Welborne's three centres and the adjacent primary school. In addition, the location will provide clear opportunities for pupils from Knowle to access a much closer school which will support significant reductions in vehicular travel to school for 11-16 year-olds from Knowle.</p>	To reflect the change in location of the Secondary School.
AM34	Page 73, Paragraph 5.93	<p>The location of the school, relatively close <u>adjacent</u> to the Knowle Road <u>District Centre</u>, will enable it to be constructed in line with its anticipated first intake of pupils in 2025/2026. The location and minimum size of the site required (9 hectares) will also ensure that the school's playing fields are incorporated alongside it, and the landscaping beyond these, are able to reduce the visual impact of Welborne into the rest of the Knowle Triangle, which will perform a SANGS role for Welborne.</p>	To reflect the change in location of the Secondary School.
AM35	Page 73, Paragraph 5.94	<p>In terms of the layout of the school the clear expectation is that the parts of the school that are located outside of the Welborne Plan boundary, and therefore outside of Fareham Borough, will comprise grass pitch playing fields with no buildings or permanent structures, beyond fencing and goal posts. This is essential in order to ensure that the Knowle Triangle will be able to perform its role as a settlements gap between Knowle and Welborne, as set out within the Winchester Local Plan Part 1. <u>The layout of the school will need to respond to noise levels in external areas, and ensure that appropriate noise levels are achieved for external teaching and playing areas through the orientation of school buildings. Furthermore the location of the high and intermediate pressure gas pipelines will also need to be taken into account when determining the layout of the school.</u></p>	To reflect the change in location of the Secondary School.

Mod Ref:	Plan Ref.	Proposed Minor Modification	Reason for Change
AM36	Page 73, Paragraph 5.95	As referred to above, the opportunity exists to deliver the a primary <u>school</u> and secondary schools within the 'education cluster' adjacent to the District Centre in the east of Welborne, as a single 'all-through school', and this will be explored further <u>with the County Council</u> . Developing an 'all-through school' in stages, as the new community evolved, could potentially facilitate an earlier provision of secondary education on site.	To reflect the change in location of the Secondary School and better reflect the role of the County Council in education planning and provision.
AM37	Page 81 – 84, Paragraphs 6.16 – 6.30	Amended Affordable Housing supporting text – set out in Part B1	To provide clearer guidance on Council's approach to delivering affordable housing.
AM38	Page 87, Paragraph 6.50	Addition of new paragraph below existing paragraph 6.50: <u>All custom build proposals for plots at Welborne should be consistent with the Welborne Design Guidance SPD.</u>	Explain role of Design Guidance SPD.
AM39	Page 87-88, Policy WEL21 – 4 th paragraph	Custom-builders taking up plots at Welborne shall ensure that their proposals comply with relevant policies within the Fareham Development Plan and are consistent with the Welborne Design Guidance SPD and any relevant and approved strategic design codes.	Remove reference to SPD from policy – change PM401 places reference in supporting text.
AM40	Page 89, Policy WEL22 - 1 st paragraph	WEL22 - Gypsies, Travellers and Travelling Showpeople Provision for gypsies, travellers and travelling showpeople is not anticipated to be required at Welborne. However, a Any <u>Any</u> planning applications for one or more permanent pitches for gypsies or travellers at Welborne will only be permitted where it can be demonstrated that the proposal:	To better reflect the fact that sites for gypsies, travellers and travelling showpeople are not allocated at Welborne or anticipated to come forward at Welborne.
AM41	Page 91, Paragraph 7.9	The Transport Strategy and the Strategic Framework have been developed in tandem, to develop revised high level transport principles for Welborne. <u>Transport modelling undertaken to date indicates that the majority of movements to and from Welborne will be to the south, including the M27.</u>	To recognise the anticipated movement patterns to & from Welborne.

Mod Ref:	Plan Ref.	Proposed Minor Modification	Reason for Change
AM42	Page 91, Paragraph 7.12	<p>Addition of new paragraph below existing paragraph 7.12:</p> <p><u>Travel planning will be used across the site to assist accessibility to and lead to a reduction in use of the private car. Initiatives will be delivered with each part of the site in accordance with the Framework Travel Plan.</u></p>	To provide explanation on how travel planning will be delivered.
AM43	Page 97, Paragraph 7.30	<p>Any planning application for the site must be supported by a Transport Assessment to assess the phasing of the development against the implementation of various off-site highway improvements, including works to the M27 and A32 and any other primary or secondary links or junctions to mitigate the traffic impacts on the local and strategic road network and mitigate any environmental impacts, <u>including any impacts on air quality in the surrounding area.</u></p>	To provide clarity over the need to ensure the appropriate management of air quality.
AM44	Page 102, Paragraph 7.52	<p>Addition of new paragraph below paragraph 7.52</p> <p><u>Paragraph 8.38 of this Plan identifies a number of links to the surrounding countryside which should be fully explored to create improved pedestrian and cycling links to surrounding communities and the surrounding countryside.</u></p>	To aid legibility of Plan.
AM45	Page 105, Paragraph 8.9	<p>One of the key aspects of the GI Strategy is to encourage the new community at Welborne to enjoy healthier life-styles. This will in part be achieved through providing a network of connected open spaces which encourages walking, informal exercise, and sports. It will also include giving the residents of Welborne the opportunity to grow their own food and will provide at least 2.4 <u>2.0</u> hectares of allotments, with the further opportunity to provide community orchards. This amount is based on the standard of 27 allotment plots per 1,000 population <u>households</u>.</p>	To correct error in the open space requirements.
AM46	Page 105, Footnote 130	<p><i>The allotments standard being taken forward within Policy WEL29 derives from the Fareham Allotment Strategy (FBC, 2010) and is based on 27 plots (of 125 square metres each) per 1,000 population <u>households</u>, which equates to 0.34 <u>0.13</u> hectares per 1,000 <u>population</u>.</i></p>	To correct error in the open space requirements.

Mod Ref:	Plan Ref.	Proposed Minor Modification	Reason for Change
AM47	Page 111, Policy WEL31 - 1 st para	The initial planning applications for development at Welborne shall be supported by a full ecological assessment to identify and address potential impacts on designated sites, priority habitats and priority and protected species, within and immediately adjacent to the site boundary.	For clarity.
AM48	Page 111, Policy WEL31 - 2 nd para	The biodiversity assessment <u>ecological assessment</u> shall clearly set out how biodiversity interests will be protected, and where possible enhanced. Given that the development of Welborne will take place over a long period of time, the biodiversity assessment <u>ecological assessment</u> should provide details of how it is intended that it is regularly updated to ensure that any mitigation measures required are effective.	To remove confusion as to what is required.
AM49	Page 113, Paragraph 8.43	Addition to end of paragraph: <u>Structural landscaping schemes will be required to demonstrate how the proposed landscaping responds to the areas of high landscape quality to the north and east of the site, especially when viewed across the site from the south. The structural landscaping should take into account and soften the potential impact of the eastern edge of Welborne on long distance views of the site from Portsdown Hill.</u>	To provide further clarity over the expected protection for areas of high landscape sensitivity.
AM50	Page 120, Paragraph 9.19 - 3 rd sentence	If connection of Welborne to the Knowle STW is to be pursued, the site promoters will need to demonstrate that the STW could be expanded and gain planning permission from Winchester City <u>Hampshire County</u> Council as the waste disposal authority STW is in their area.	To correct who the appropriate waste planning body would be.

Mod Ref:	Plan Ref.	Proposed Minor Modification	Reason for Change
AM51	Page 132, Paragraph 10.35	Therefore, the Council expects site promoters to use the phasing principles and guidance within the Concept Masterplan Phasing Plan this chapter of the Welborne Plan as well the IDP to produce a detailed phasing plan and an <u>infrastructure delivery plan strategy for the implementation of the development</u> . This phasing plan and <u>infrastructure delivery plan implementation strategy</u> will need to be submitted to the Council for approval alongside initial planning applications for development at Welborne. In line with the principle of a flexible approach, the site promoters will be expected to keep the phasing plan and <u>infrastructure delivery plan implementation strategy</u> under review and submit any changes to the Council for approval alongside relevant planning applications.	To provide clarity on infrastructure delivery and phasing.
AM52	Pages 132 – 133, Paragraphs 10.36 – 10.41	Deleted Deferral of Contributions section – set out in Part B2	To remove references to the deferral of infrastructure contributions and to improve clarity.
AM53	Page 138-141, Chapter 11	See Part B3 for amendments to supporting text of Chapter 11: Monitoring and Review - paragraphs 11.5 and 11.6 are main modifications.	To provide clarity (along with modification PM11-2) on frequency and mechanism for monitoring.
AM54	Glossary-new item	<u>Transport Framework:</u> A high level statement prepared by the site developers, setting out the key transport implications and strategy for the site as a whole, accompanying the Structuring Plan for the site.	For clarity.
AM55	Glossary – new item	<u>Design Principles:</u> A high level series of principles which shall guide the future design work to be undertaken in preparation of planning applications. They are set out in the Strategic Framework Diagram, the policies of the Welborne Plan and relevant policies in the Core Strategy. The Principles set out the scheme parameters and design objectives that will underpin the Structuring Plan. They will ensure that the Vision for Welborne is an integral part of the proposals and set a consistent high-level approach to design that will guide all future planning applications.	For clarity.

Mod Ref:	Plan Ref.	Proposed Minor Modification	Reason for Change
AM56	Glossary – new item	<u>Environment standards:</u> As set out in legislation or regulation regarding acceptable levels of pollutants or other hazards. For all water issues, the appropriate standards are monitored and regulated by the Environment Agency.	For clarity.
AM57	Glossary – new item	<u>Travel Planning:</u> Programmes and initiatives designed to influence travel behaviour that will assist accessibility to new developments and lead to a reduction in use of the private car. The standard method of meeting the objectives of travel planning initiatives is through the preparation and delivery of Travel Plans. These are represented by a package of measures designed by a workplace, school or other organisation to encourage safe, healthy and sustainable travel options.	For clarity.

Appendix B – Part B1 – changes to Housing Chapter

The additional modifications include a large number of changes to Chapter 6. To aid clarity, those modifications are set out in full below.

Affordable Housing

6.16 Housing Needs

Meeting the needs of those in the Fareham area who cannot access the housing market is one of the key priorities of the Council and is an important objective for Welborne. Delivering new affordable housing is vital in achieving sustainable development and Welborne provides a rare opportunity for the Borough to deliver a significant number of affordable homes and to make a real contribution towards addressing the current backlog of housing need.

6.17 Policy CS13 of the Core Strategy sets out the aim to achieve between 30% and 40% of all homes at Welborne as affordable homes and this was the starting point for the Welborne Plan. Subsequently, up-to-date evidence on housing needs has been undertaken, initially by the Council³ and subsequently by PUSH through the South Hampshire Strategic Market Assessment (SHMA) and a target of 30% affordable housing has been confirmed. The SHMA identified likely housing need within the Borough to 2036, ~~taking into account the role that lettings in the private rental sector play in meeting needs.~~ This evidence recommended an annual target for the whole Borough of 146 additional affordable homes, which amounts to 3,358 by 2036. Given that Welborne represents a majority of Fareham's planned housing delivery within this period, it is expected that a significant proportion of this target for affordable homes will be met at Welborne.

6.18 Tenure, Housing Mix, Adaptability and Integration

The SHMA ~~also~~ considered the proportions of new affordable homes that should be provided to meet varying levels of need and it recommended a tenure split of 70% affordable and social rented homes and 30% in 'intermediate' forms of tenure, such as shared ownership homes. Whilst this split will be appropriate in the early phases of development, it will need to be kept under review to ensure that tenures being provided meet the needs at the time each phase is built out and that phases of development remain viable.

6.19 Housing Mix, Adaptability and Integration

A wide range of affordable housing types and sizes will be required at Welborne to meet identified housing need. Within each residential phase, the mix will need to provide homes suitable for families and for smaller households as well as homes suitable for vulnerable households, including those with reduced mobility. Over the course of the Welborne development, a range of specialist needs housing should be provided as part of the affordable housing mix. This will include specialised accommodation for older people and wheelchair accessible homes. These requirements are covered in more detail in the following section below and in Policies WEL19 and WEL20.

6.20 The SHMA considered an appropriate mix of affordable homes for Fareham, based on the latest available data on housing needs. However, the long build-out period of Welborne means that this evidence provides only a starting point and the precise affordable housing mix required cannot be known at this stage. Housing needs change over time and are also influenced by Government policies, such as welfare reforms.

³ Fareham Borough Housing Needs Assessment (DTZ, August 2012)

Therefore, the agreed mix of affordable homes provided within each residential phase will need to reflect the identified needs and viability at the ~~that~~ time the phase comes forward and will be agreed with the Council.

- 6.21 In line with the requirement set out in the previous section for a proportion of market homes to be adaptable and to provide for those with reduced mobility, the providers of affordable housing at Welborne will also be expected to respond to this need. Therefore, subject to need and viability, approximately 15% of all affordable homes within each residential phase should be designed and built to meet higher accessibility standards equivalent to the Lifetime Homes standards.
- 6.22 To ensure the creation of a mixed, integrated and socially inclusive community, the affordable housing should be developed to the same design and construction standards as the market housing. Affordable dwellings should be integrated with the market housing, taking account of the nature of the stock, the mix of tenures and the prevailing character of the different parts of Welborne, as set out in Chapter 4. The level of integration will always be expected to fit within a range consistent with the upper and lower limits referred to below and set out in Policy WEL18. For management purposes, it may be considered appropriate to cluster the affordable housing in small groups.
- 6.23 Delivering Affordable Housing
National planning policy requires that new development is deliverable and this means that the overall financial burden on new development, including obligations to deliver affordable housing, should not threaten its economic viability.⁴ Extensive viability testing has been undertaken on the proposals within this ~~p~~Plan. The outcome of this evidence is that there is potential to deliver a significant proportion of affordable homes, but that an overall target of 30% is likely to be the highest that the development as a whole could reasonably be expected to achieve.
- 6.24 In coming to this conclusion, the viability evidence has taken into account separate studies⁵ which have sought to identify and secure additional and external funding for infrastructure and affordable housing at Welborne. ~~One significant outcome of this work is the Council's decision to participate in establishing of the potential delivery mechanisms which may assist viability is~~ a Joint vVenture hHousing eCompany (JVHC) that ~~will~~ may allow the Council and its partners to play a more central and active role in the delivery of affordable housing across the Borough potentially including Welborne. The nature of the role this JVHC will play at Welborne will be determined in dialogue with the principal landowners ~~prior to the determination of the initial planning applications at Welborne~~. If the opportunity arises to use the JVHC, or any other external funding, to help deliver a higher level of affordable housing than would be expected to result from the 30% overall target, this will be positively and actively pursued by the Council.
- 6.25 Notwithstanding the potential role of the JVHC, delivering the target level of 30% affordable homes each year will be a significant challenge given the overall infrastructure burden on the development and the length of time it will take to build the new community. Therefore, it is necessary for the Welborne Plan to consider how a flexible approach to the delivery of affordable homes could be required.
- 6.26 Flexibility may be required, for example, where the proportion of affordable homes considered to be deliverable within the early phases of the development fell below the 30% policy target, or proposed a different tenure split to the 70:30 envisaged in Policy

⁴ National Planning Policy Framework paragraph 173 (DCLG, March 2012)

⁵ These comprise the Welborne Infrastructure Funding Study (GVA, March 2013) as well as further commercially confidential work undertaken for the Council on options to support housing investment.

WEL18. In line with the overall approach to development viability (see Chapter 10), the Council would expect such proposals to be fully justified by a robust and independently verified viability assessment. Where the Council accepted a reduced percentage levels of affordable housing numbers delivery, there would also be a clear expectation that the affordable housing deficit would be 'clawed-back' rectified, preferably later within that same phase of development or, failing that, within a subsequent residential phase.

- 6.27 ~~Before accepting reduced levels of affordable housing delivery, the Council will initially consider whether some or all of the short-fall in affordable housing could be delivered by the JVHC. Where this option proved not to be viable, feasible or desirable, the Council will apply its deferral of contributions policy as set out in WEL41 and expanded upon in the Welborne Planning Obligations SPD.⁶ In essence, this policy expects that, if market sales values increase significantly following an agreed reduction in affordable housing delivery, the increased development revenues would subsidise additional affordable housing provision within that phase of development.~~
- 6.28 ~~If it proves not to be viable or practical for the principal landowners to increase the level percentage of affordable housing provision within the same phase, then the Council will seek to ensure that the affordable housing deficit is rectified the 'claw-back' within the subsequent phase of residential development. Again, the The Council will initially consider the potential for the JVHC to deliver some or all of the short-fall, but failing that, will expect increased development revenues within that the next phase to subsidise the additional affordable housing. In the latter case, expectations of additional provision for affordable housing would be subject to the overall priorities at that time for the use of deferred contributions where other infrastructure requirements had also been deferred on viability grounds.~~
- 6.29 ~~In cases where the affordable housing deficit claw-back is deferred to a subsequent phase and, at the start of that phase of development, the principal landowner considers that the provision of the additional affordable housing would not be financially viable, then the Council will expect this to be tested through a formal development valuation commissioned by the Council, at the developer's cost. This valuation would take account of costs and revenues to date as well as the anticipated infrastructure requirements (including any other requirements deferred from previous phases) and the anticipated revenues for the following main phase. Where it is agreed that both the normal target levels of provision and the additional claw-back provision to rectify a shortfall on the previous phase cannot be met, the Council will again consider whether it would be viable, feasible and desirable for the JVHC to deliver some of or the entire shortfall. Failing this, the Council will re-employ its deferral of contributions policy.~~
- 6.30 ~~When applying any flexibility in the phasing and delivery of affordable housing it will be important not to undermine the principle of creating a mixed, integrated and socially inclusive community as set out above. In practice, this means that lower and upper percentages of affordable housing will be set for any given phase of development at Welborne to avoid under provision or over-concentration in any one part of the development. The minimum and maximum levels that will be acceptable within any given phase will be agreed with the Council. However, overall, it is considered that a an absolute lower limit of 10% affordable housing numbers and an upper limit of 40% affordable housing numbers provide a reasonable balance between the need for flexibility and achieving the vision and objectives of the Welborne Plan.~~

⁶ The Welborne Planning Obligations SPD will be prepared during 2014 and will be adopted at the same time as the Welborne Plan in early 2015.

Appendix B – Part B2 – changes to Delivery Chapter

The additional modifications include a large number of changes to Chapter 10. To aid clarity, those modifications are set out in full below.

Deferral of Contributions

- 10.36 ~~The approach to ensuring development viability is set out in Chapter 1. This emphasises that the Welborne Plan aims to ensure that necessary infrastructure (including affordable housing⁷) could be fully delivered at the time it was needed, as a fundamental requirement for achieving the vision for Welborne. However, it also indicates that all parts of the Welborne Plan were underpinned by the principle of ensuring that a flexible approach would operate, where necessary, to allow for changes in development viability and to ensure that the development as a whole remained deliverable throughout the plan period.~~
- 10.37 ~~As part of this flexible approach, the Council is introducing a ‘deferral of contributions’ policy that will apply only where necessary and justified by independently tested viability assessment. In such circumstances, application of the policy will allow the deferral of some infrastructure requirements to be considered by the Council.~~
- 10.38 ~~In cases where the Council agrees to defer infrastructure, application of the deferral of contributions policy will seek the subsequent provision of any deferred contributions (or the delivery of the deferred infrastructure items) within the same main phase of the development. If this cannot be achieved, as demonstrated by an independently tested viability assessment, then the deferred infrastructure contributions or provision will be sought in the following main phase, in addition to the ‘normal’ requirements of that new phase.~~
- 10.39 ~~Where viability problems remain, a further independently tested viability assessment will be required to take account of previous and future costs and revenues, the ‘normal’ infrastructure requirements of the new phase and any outstanding deferred infrastructure requirements. This viability evidence will need to be submitted to the Council for agreement alongside initial planning applications for the new main phase. Where the Council accepts the on-going viability constraints, the deferral of contributions policy will be re-employed as set out in the previous paragraph. Where, despite deferral, an item of infrastructure remains unviable, the Council and site promoter will agree an alternative approach which does not require the specified infrastructure, to funding to ensure that infrastructure necessary to support the development can be delivered when it is required but which nevertheless achieves mitigation of the impacts of the development. This decision would be informed by an independently tested viability assessment.~~
- 10.40 ~~In all cases where more than one infrastructure item is being deferred as set out above, the Council will agree with any relevant infrastructure or service providers which of the deferred infrastructure items should be provided first as priority during that main phase of the development, should any claw-back of contributions be triggered by improving market and economic conditions.~~

⁷ Although this section refers primarily to ‘infrastructure’ this should be read as including affordable housing requirements. A detailed approach to how the deferral of contributions policy would apply to affordable housing is set out in Chapter 6.

10.41 ~~The detailed guidance setting out how the deferral of contributions policy will be operated by the Council is set out within the Welborne Planning Obligations SPD.⁸~~

⁸~~The Welborne Planning Obligations SPD will be produced during the course of 2014 and will be adopted by the Council at the same time as the Welborne Plan in early 2015.~~

Appendix B – Part B3 – changes to Monitoring and Review Chapter

The additional modifications include a large number of changes to Chapter 11. To aid clarity, those modifications are set out in full below.

The Monitoring Framework

- 11.1 This chapter sets out how the Welborne Plan will be monitored following its adoption. The mechanisms may be altered over the lifetime of the project, but nonetheless this chapter sets out the main principles by which monitoring will take place.
- 11.2 ~~The adopted Core Strategy contains a series of high level targets in relation to Policy CS13 which represent the essential components for the delivery of Welborne. However these targets have required review and refinement in light of the technical evidence work and as such, the suite of detailed policies in the Welborne Plan to guide development will require new monitoring targets and indicators. These will supplement the reviewed targets within the Core Strategy and together will form the monitoring framework for Welborne.~~
Delivering the Welborne project depends upon the actions of a number of interested parties. Therefore monitoring the Welborne project will require a coordinated and complimentary approach to be followed by the key agencies involved.
- 11.3 ~~The purpose of developing a monitoring framework is to provide a mechanism for assessing developmental progress of Welborne against the overall vision and objectives for the new community as set in the Welborne Plan. This is of particular relevance where development targets are set within the policies of this plan, such as for the delivery of housing or employment space, or for the provision of specific community, education and recreation facilities. However, it should be recognised that much of the finer detail will only come forward through the planning applications and the development management process over the lifetime of the project.~~
A key asset for the Welborne project to date has been the Strategic Delivery Group, with active involvement of the following:
- Site promoters
 - Fareham Borough Council
 - Hampshire County Council
 - Highways Agency
 - Homes and Communities Agency, and
 - Solent Local Enterprise Partnership.
- 11.4 ~~Implementing the policies in the Welborne Plan depends upon the actions of a number of interested parties and cannot be directly controlled. Further detail on how the various parties are expected to contribute towards the overall delivery of Welborne can be found in the Infrastructure Delivery Plan.~~
These organisations all have an interest in the delivery of a successful new community at Welborne. The Group has provided an opportunity for the organisations to discuss the emerging proposals for Welborne, with a focus on delivery. The governance arrangements will be reviewed over the lifetime of the project; nonetheless there will always be a role for a group to coordinate public and private sector action and investment. This will build upon both the body of technical work contained within the evidence base for the Welborne Plan, (e.g. the transport evidence), as well as the principle of coordinated investment set out in the Infrastructure Funding Strategy. Specific tasks for this Group include identifying and agreeing key infrastructure spend and monitoring and reviewing infrastructure funding and cost.
- 11.5 ~~Monitoring the outcomes of the policies in the Welborne Plan will be undertaken on a regular basis to enable early action to be taken to overcome any barriers to delivery of the~~

~~plan's objectives and policies.~~

The Phasing Plan contained within Chapter 10 of this document sets out the key outcomes and critical infrastructure identified for each of the main phases of development. This has been produced to inform the understanding of the Plan, using the best information available. It should be recognised that the mechanism which will deliver Welborne, including critical infrastructure, will be the phasing plan, infrastructure delivery plan and s106 planning agreement approved alongside planning application(s) for the site. Nonetheless, the phasing plan in Chapter 10 provides a useful guide to the Council's expected outcomes, including infrastructure.

~~11.6 Where appropriate, Borough-wide targets which are monitored through the Council's Authority Monitoring Report (AMR) will be broken down and applied to the Welborne Plan area, so that the contribution of Welborne to Borough-wide targets can be seen on a local scale.~~

Strategic Group meetings will be undertaken on a regular basis throughout the year to enable early action to be taken to overcome any barriers to delivery of the Plan's objectives and policies. Particular reference will be made to the key outcomes and critical infrastructure listed in the Phasing Plan in Chapter 10 of this Plan. Any risk to the timely delivery of either will be reported as an entry in the Delivery Risk Register which will be created and reviewed at the Group meetings. Given the wider public interest in the delivery of the Welborne project, it will be appropriate for changes in the Delivery Risk Register for Welborne to be reported to the Welborne Standing Conference as and when they arise and included in the Council's Authority Monitoring Report.

~~11.7 Table 11.1 below lists all of the local indicators that will be monitored specifically for the Welborne Plan area. It should be noted that the quantities of development or provision are based on the assumption that 6,000 homes will be delivered at Welborne. These quantities would need to rise or fall if a different number of homes are delivered.~~

If an issue is identified where delivery of a key outcome or item of critical infrastructure for a phase may not be met, it will be for the Strategic Group to identify any contributory factor and identify necessary action to remedy the issue. If a planning policy in the Welborne Plan is the issue (or a main contributing factor) then necessary amendments will be identified and if they require a change to a Plan policy, may trigger a review of the Welborne Plan. Should any review of the Plan appear likely, then the Welborne Standing Conference will have a role in informing the priorities for any revision.

11.8 Complimentary to the role of the Strategic Group, will be the ongoing monitoring of the outputs of the Plan by the Borough Council. The monitoring will cover a range of measures, both in terms of built form (homes delivered, floorspace built, etc.) as well as some quantifiable measures of what sort of place the new community is becoming (e.g. number of homeworkers, number of children of secondary school age, etc.).

~~44.2~~
11.9 The adopted Core Strategy contains a series of high level targets in relation to Policy CS13 which represent the essential components for the delivery of Welborne. However these targets have required review and refinement in light of the technical evidence work and as such, the suite of detailed policies in the Welborne Plan to guide development will require new monitoring targets and indicators. These will supplement the reviewed targets within the Core Strategy and together will form the monitoring framework for the Welborne Plan.

~~44.3~~
11.10 The purpose of developing a monitoring framework is to provide a mechanism for assessing developmental progress of Welborne against the overall vision and objectives for the new community as set in the Welborne Plan. This is of particular relevance where development targets are set within the policies of this plan, such as for the delivery of housing or employment space, or for the provision of specific community, education and recreation facilities. However, it should be recognised that much of the finer detail will only come forward through the planning applications and the development management

process over the lifetime of the project.

11.11 Where appropriate, Borough-wide targets which are monitored through the Council's Authority Monitoring Report (AMR) will be broken down and applied to the Welborne Plan area so that the contribution of Welborne to Borough-wide targets can be seen on a local scale. Given the wider public interest in the delivery of Welborne the progress against targets will be reported to the Standing Conference.

11.12 Table 11.1 below lists indicators that will be monitored specifically for the Welborne Plan area. It should be noted that these indicators and targets themselves will be subject to change over the lifetime of the project, to ensure that the overall framework provides a suitable mechanism for assessing the delivery of the Plan. For instance, the mechanism and timetable of delivery of the schools will be fixed in section 106 planning agreements. Nonetheless, the following sets out the Council's commitment to indicate the built form outputs of the Plan and what type of place is being delivered.

11.13 It will take a mixture of sources to monitor all of the outputs listed. These will include buildings regulations information and residents surveys. The monitoring of the framework set out below will be undertaken by the Council in liaison with the Community Development Officer to ensure that built form outputs and qualitative measures are captured.

11.8 Monitoring of these indicators will establish the extent to which the vision for Welborne is being achieved. This will help to identify areas where further action is required from the Council or other agencies identified within the monitoring framework. Taken together the targets and indicators provide a robust framework for assessing delivery of the plan. However, given the scale and the evolving nature of the project it is unlikely that failure to meet one target would indicate that the plan needs reviewing. Should monitoring indicate that a phase of development was not delivering the overall vision and objectives of the Plan, the Council will consider the need to formally review the Welborne Plan. The need for this review will be identified through the Authority's Monitoring Report.

Table 11.1: Welborne Monitoring Indicators

Indicator	Target(s)	Year
Net increase in provision of B use class employment floorspace at Welborne	60,000 sq. m.	2036
<u>Floorspace built</u>		
<u>Phase 1</u>	<u>1,000 sq. m</u>	<u>2015-2019</u>
