Customer had been in the venue alone and seemed fine. Her partner then came to meet her with 2 children they tried to order the children cokes we made them aware that the children couldn't be on the premises due to licensing objectives. She said she was sorting the children out. The children then went outside we explained again that they would have to leave due to the children. A member of Staff [REDACTED] knows [REDACTED] well so said she would go and speak to her. When [REDACTED] went outside [REDACTED] then proceeded to call [REDACTED] a cow, cunt, slut and then headbutted [REDACTED] saw this coming so moved back and it lightly landed on her nose Town CCTV was informed and also the police social services also informed as I feel the children being left in her care would pose a risk to them

He was also using vile language and was asked to leave. He returned about an hour later and went straight to the toilets. A member of staff went up to ask him to leave and it was evident he was hiding something down his trousers. He was very agitated and said he was looking for [REDACTED] and was going to stab him.
