

FAREHAM

BOROUGH COUNCIL

Presentation to Planning and Development Policy Development and Review Panel

Date: 04 September 2018

Report of: Director of Planning and Regulation

Subject: WELBORNE DELIVERY UPDATE

SUMMARY

The Council has been promoting the new community at Welborne for several years. Over the last 18 months significant progress has been made towards the delivery of the first home on the site, including the submission of an outline planning application for the comprehensive development of the new community and successful completion of land assembly. Since receiving Garden Village status from the Government in 2017, Welborne is in the national spotlight and has received a great deal of national funding and support. Nevertheless, it is a complex project on a scale that surpasses any other single development in the Borough and, as such, there are significant challenges associated with its delivery.

RECOMMENDATION

Members are now invited to note the contents of the presentation.
