Hi Pearl

Thank you for the confirmation of the hearing and the letter provided. I am able to confirm that I shall be attending the hearing.

In answer to the clarification points requested within the attached letter I answer them accordingly:

1 – Would the hearings panel be able to attach conditions to the licence which would satisfy your concerns in respect of any potential for crime and disorder and public nuisance?

I would refer the Licensing Authority to the representations provided by the Police. Our position is that given the length of time for which the premises applicant has traded without a premises licence and during this length of time it is suspected that the applicant has committed a number of offences under the Licensing Act 2003, there are no conditions which would satisfy Police concerns in respect for potential crime and disorder and public nuisance. As such our position as detailed within our representations document still stands, we are still requesting that the panel do not grant the premises licence.

2 – If this were possible, could you identify the measures which would satisfy our concerns?

I would refer the Licensing Authority to the representations provided by the Police. The measures which would satisfy our concerns are for the panel to not grant the premises licence.

3 – Have you any first hand evidence of incidents of crime and disorder and/or nuisance which has arisen as a result of the actions of patrons of the Rancho Steak House?

Again I refer the Licensing Authority to the representations provided by the Police. We have no evidence with regards to Patrons. Our evidence submitted is in relation to the applicant consistently performing licensable activity without an authorisation to do so. The Applicant committing offences under the Licensing Act 2003 which are deemed relevant offences under the act.

Kind Regards

Pete
