| Subject: | Secure Access to the Western Side of the Solent Airport and provide further car parking for children's play area |
| Report of: | Director of Planning and Regeneration |
| Corporate Priority: | Maintain and extend prosperity |

Purpose:

The purpose of this report is to seek approval to undertake safety improvements to the West Gate entrance to the Solent Airport at Daedalus and to provide additional parking immediately adjacent to the children's play area being delivered at the Western end of Daedalus Common.

The proximity of both the new Daedalus Common (and associated parking) and the adjoining children's play area to the West Gate of Solent Airport requires that we improve the security of the airfield to reduce the risk of unauthorised access. There is also an opportunity to provide additional parking provision immediately adjacent to the children's play area.

The programming of developments requires that we put in place a package of works to ensure the safety of those using and visiting the airport and to enhance the visitor experience.

It is recommended that a package of works be implemented in spring 2020.

Options Considered:

As recommendation.

Decision:

RESOLVED that the Executive:

- (a) approves a capital budget of £250,000 to fund improvements to airside security at the West Gate entrance to the Solent Airport and provide further parking for the children's play area to the West of Daedalus Common; and
- (b) agrees to delegate the award of contract to the Director of Planning and Regeneration following consultation with the Executive Leader.

Reason:

To address the increased risk of airside incursions following the planned opening of Daedalus Common and the new children's play area and to provide further parking for the proposed children's play area.
