Dear Helen,

At the opening of the Inquiry the Inspector asked me to provide document and page references to accompany my submission. I have made an adjustment to my submission only in that I have added a number to each paragraph for ease of reference and put an explanatory note at the end of the submission.

Attached to this email is

- my revised submission
- the Newgate Lane Transport Assessment from 2015
- the following links to the Gosport Infrastructure Investment Plan; Auto Express site showing data on road safety of the A32; and the 2019 Air Quality Annual Status report.

I trust this is the information the Inspector was looking for but, if you require any more information, please let me know.

Kind regards,

Cllr Stephen Philpott

PS [REDACTED] I will be expecting a call at some time during the day on Wednesday and I may need to leave the Inquiry at short notice.

I already have a number of important scheduled meetings over the coming two weeks as Hampshire County Council approaches its budget meeting. Starting tomorrow (Wednesday) I have a meeting at 9am so I will be late attending in any case. On 11 February I have a pre-arranged (socially distanced) site visit followed by another unavoidable meeting. I will, therefore, be away from my computer for most of the day. Next Tuesday, 16 February, I have a one hour meeting at midday which I can try to rearrange. On Wednesday from 10am I will be attending a Regulatory Committee meeting. I cannot predict the duration. I have another county council meeting on Thursday 18 February. However, I have cleared my diary for Friday 19 February when I have been requested to be available to give evidence.
