YOUR COMMENTS ON THE CASE

As a concerned resident of Down End, I am objecting to the proposed development by Miller Homes, mainly because there is not the appropriate infrastructure for such a build, over a very old railway bridge, which at best can be dangerous especially for pedestrians and I am sure that there will be a fatality at some point, maybe a school child? Down End Rd is a very busy road which will lead to even more congestion, and The Thicket will be used as a "rat run" and again a very strong chance of injury or fatality as the road is not very wide and "bendy".

I understand that the Welbourne development with thousands of houses being build, so why do we need a further development, when the correct infrastructure and amenities will be in place for Welbourne?

It just seems that Fareham Council and Hampshire County Council are determined that the development to East of Down End Road will go ahead with no consideration of the residents of Down End and the damage to the local environment

Miller homes are determined the development will go ahead come he'll or high water, and I'm sure the residents of Down End and Fareham, just, want them to be told NO! Once and for all.
