Subject: Appeal by Foreman Homes Ltd - Land to the south of Romsey Avenue, Portchester
(APP/A1720/W21/3271412)

Hi Tim,

I live at 58 Romsey Ave, Fareham, UK, and have great interest in the above appeal and outcome. I am deeply concerned regarding the safety aspects of the proposal which will send up to 500 more cars a day down narrow back streets which have 2 way flows of children (including my own) each day heading to local schools. That is before we talk about the agricultural and ecological aspects of the land that has always been farmed in the 15 or so years that I have lived here, and acts as a primary support ground for Brent Geese and Wading birds, both of which I have seen on the field.

Unfortunately the timing of the appeal coincides with our first family holiday for over a year, but I would like to remotely attend when reception and family time allow. Can I have the login details and also the agenda by day so I can prioritise when will be best to attend?

Kind regards,

Mike Higgins
