# APPENDIX D GREENFIELD RUNOFF ASSESSMENT

# Greenfield runoff estimation for sites

www.uksuds.com | Greenfield runoff tool

Calculated by:

Alistair McShane

Site name:

Oakcroft Lane

Site location:

Stubbington

This is an estimation of the greenfield runoff rate limits that are needed to meet normal best practice criteria in line with Environment Agency guidance "Preliminary rainfall runoff management for developments", W5-074/A/TR1/1 rev. E (2012) and the SuDS Manual, C753 (Ciria, 2015). This information on greenfield runoff rates may be the basis for setting consents for the drainage of surface water runoff from sites.
