5. FIVE YEAR HOUSING LAND SUPPLY POSITION

The Committee considered a report by the Director of Planning and Regeneration which provided an update on the Council's Five Year Housing Land Supply Position.

RESOLVED that the Committee noted: -

- (i) The content of the report including the current 5-Year Housing Land Supply Position; and
- (ii) That the 5-Year Housing Land Supply Position set out in the attached report (which will be updated regularly as appropriate) is a material consideration in the determination of planning applications for residential development.

6. PLANNING APPLICATIONS AND MISCELLANEOUS MATTERS INCLUDING AN UPDATE ON PLANNING APPEALS

The Committee noted a report by the Director of Planning and Regeneration on the development control matters, including information regarding new appeals and decisions.

(1) P/20/0730/OA - LAND NORTH OF GREENAWAY LANE WARSASH

The Committee received the deputations referred to in Minute 5 above.

The Committee's attention was drawn to the Update Report which contained the following information: -

An additional representation has been received from a member of the public. In addition to previous concerns raised regarding the access onto the Greenaway Lane which has been addressed in section (f) of the committee report, concerns have also been raised regarding the ownership of land to the north of the site which will provide an ecological buffer. Should permission be granted, a legal agreement will be secured between the landowners to secure the retention and management of this piece of land. The legal agreement will

detail that the land will be managed by either Fareham Borough Council in the event that the open space for the application to the north is also transferred. Alternatively, the area will be managed and maintained by a private management company funded by a resident's service fee.

Comments have been received from Natural England and they raise no objection to the proposal subject to appropriate mitigation being secured.

Additionally, Conditions 2 and 3 have been amended to the following:

2. Application for approval of reserved matters shall be made to the Local Planning Authority before the expiration of three years from the date of this permission.

REASON: To comply with the procedures set out in Section 91 of the Town and Country Planning Act 1990.

3. The development hereby permitted shall be begun before the expiration of three years from the date of this permission, or before the expiration of two years from the date of approval of the last of the reserved matters to be approved, whichever is the later.

REASON: To allow a reasonable time period for work to start, to comply with Section 91 of the Town and Country Planning Act 1990, and to enable the Council to review the position if a fresh application is made after that time.

Upon being proposed and seconded the officer recommendation, subject to: -

- (i) The applicant/owner first entering into a planning obligation pursuant to Section 106 of the Town and Country Planning Act 1990 on terms drafted by the Solicitor to the Council in respect of the following:
 - a) To secure the preparation and provision of the off-site ecology area;
 - b) To secure the provision of an Ecological Management and Enhancement Plan;
 - c) To secure the necessary commuted maintenance sums prior to adoption of the ecology off site area by the Council; or
 - d) In the event that the Council does not adopt the delivered off site ecology area, then the creation of a management company to maintain the area in perpetuity including details of how that management company would be funded to ensure the management and maintenance of the area in perpetuity;
 - e) Mechanism for securing appropriate funding of the management company for the lifetime of the development;
 - f) Mechanism for ensuring collection and enforcement of the funding stream provided in d) above to fund the management of the ecological area for the lifetime of the development;
 - g) A financial contribution to secure satisfactory mitigation of the 'in combination' effects that the increase in residential units on the site would cause through increased recreational disturbance on the Solent Coastal Special Protection Areas;
 - h) A financial contribution to secure satisfactory mitigation of the 'in combination' effects that the increase in residential units on the

- site would cause through increased recreational disturbance on the New Forest Special Protection Areas;
 - i) Commuted sums towards management of any trees within the off site ecological area in the event that the public spaces are adopted by the Council; and
- (ii) DELEGATION of authority be given to the Head of Development Management to:
 - (a) Make any necessary modification, deletion or addition to the proposed conditions of heads of terms for the section 106 legal agreement; and
 - (b) Make any necessary changes arising out of detailed negotiations with the applicant which may necessitate the variation, addition or deletion of the conditions and heads of terms as drafted to ensure consistency between the two sets of provisions;
- (iii) GRANT outline planning permission, subject to: -
 - (a) The conditions in the report; and
 - (b) The amended conditions 2 and 3 as set out in the Update Report.

Was voted on and CARRIED.

(4) P/21/0741/RM - CAMS BRIDGE - LAND TO NORTH OF THE THICKET

The Committee received the deputations referred to in Minute 5 above.

The Committee's attention was drawn to the Update Report which contained the following information: -

Paragraph 9.2 of the Officer report to the Planning Committee recommends approval be granted subject to a) receipt of an acceptable amended Landscape Boundary Treatment Strategy plan and b) a list of planning conditions.

The applicant has submitted an amended Landscape Boundary Treatment Strategy plan which Officers consider to be acceptable. The plan shows infill shrub planting at two areas just south of the bridge on both sides. A shrub schedule has been provided with two evergreen species, wild privet and leylandii, to match the existing hedgerows. Three additional gaps of infill shrub planting are also proposed further south along the eastern boundary. These will be filled with species selected from the native hedgerow mix.

The submitted plan satisfies part a) of the Officer recommendation.

Suggested condition 1 should be amended to clarify that the approved Landscape Boundary Treatment Strategy is drawing number TOR-xx-xx-P-L-92-001 Revision D.

Upon being proposed and seconded the officer recommendation to: -

- (i) DELEGATE authority to the Head of Development Management to:
 - (a) Make any necessary modification, deletion or addition to the proposed conditions;
- (ii) Reserved matters and details pursuant to conditions 2 & 3 of the outline planning permission reference P/18/0001/OA be APPROVED, subject to:-
 - (a) The conditions in the report;
 - (b) Condition 1 being amended as per the Update Report;
 - (c) Subject to receipt of a satisfactory amended boundary treatment plan, showing the gap at the northern end of the party boundary between 2 The Pines and the application site being filled by an improved boundary treatment (such as a 1.8 metre high fence with evergreen planting on its east side to tie in with existing planting);
 - (d) An additional condition requiring the installation of the bollards within one month of the commencement of development, or as otherwise agreed in writing with the Local Planning Authority, and thereafter retained at all times; and

- (e) An informative be placed on the decision notice requesting that the developer investigate additional measures which can be installed on the pedestrian/ cycle access, to prevent its potential use by motorcycles and increase safety for pedestrians and cyclists.

Was voted on and carried.

(5) P/21/2048/RM - LAND TO THE EAST OF DOWNEND ROAD PORTCHESTER PO16 8TS

The Committee received the deputations referred to in Minute 5 above.

The Committee's attention was drawn to the Update Report which contained the following information: -

Final comments have been received from Fareham Housing as follows:

“The applicant is proposing 180 units for phase 1, with 40% affordable housing – 72 units, split 65% rent (47 units) and 35% shared ownership (25 units). This all accords with the Unilateral undertaking.

Affordable rent

1 more 3 bed unit and 1 less 4 bed unit is proposed compared to the unilateral undertaking.

Shared Ownership

More 1 bed units and less 3 bed units are proposed compared to the unilateral undertaking (discrepancy in 2 bed figures due to rounding).

On the basis that the percentages in the unilateral undertaking will be met when combining phase 1 & phase 2 then the above is acceptable to Fareham Housing. I would reiterate that the applicant may want to discuss with an affordable housing registered provider.

The distribution of the affordable housing units has evolved following numerous discussions. I am satisfied that the changes made by the applicant have improved the distribution and integration of the affordable housing units on this site.”
