[REDACTED]  
[REDACTED] I live opposite and some 50 yards north of the theatre. I have been asked to comment on the Theatre. I think it is a lovely asset for all the nice people who attend and enjoy their family time. My only complaint can be about the parking. Without suitable parking for attendees then they all park on the pavement from the theatre north towards the roundabout. I cannot reverse out of my drive without great danger when there are cars parked on the pavement either side of the end of my drive, Even with hazard lights going. How do you get out. The parking on the pavement between me and the theatre is on the pavement and up against the hedge. So adults and children have no option but to walk down the centre of the road. At some times in the year in the daylight but certainly at night this is so dangerous. Drivers are still using the road and quite often putting their foot down to get past the theatre. We have had road rage incidents. It is only a matter of time before there is an accident. Then maybe some action will be taken. Provide car parking , double yellow lines , cones , or at least take the problem seriously. But do something. Take your heads out of the sand. Or accept that your lack of attention to this problem has caused an accident of even a death. A lovely facility and enjoyed by so many but car parking is needed. If you were really serious about the dangers then you would have pictures and film of the parking problems. A picture is worth a thousand words. Thank you for your time and trouble. [REDACTED]
